# HARDING STILL LEADS WOOD

## PRIMARIES IN 3 STATES ENLARGES PROHIBITION AND PEACE TREATY ISSUES

Two Striking Facts Develop in Elections in New Jersey, Ohio, and Massachusetts Declare Political Leaders.

### GAUNTLET DOWN TO DEMOCRATIC PARTY

Returns From New Jersey Remove All Doubt Of Bitter Fight On Prohibition At Convention In June.

## WOOD DEFEATS JOHNSON IN PRIMARY IN NEW JERSEY BY SCANT MAJORITY

New Jersey—Gen. Leonard Wood apparently has beaten Senator Hiram Johnson by a scant margin, although the race is very close and is still in some doubt. Massachusetts—Regular slates on both Democratic and Republican tickets went over. Massachusetts will be unpledged, but favoring Governor Coolidge. Opponents of league of nations win. Ohio—Senator Harding, "favorite son" candidate, elected 44 delegates to General Wood's 4. Names of Herbert Hoover and Senator Johnson were written in. Washington—Washington's delegates will go instructed for Senator Miles Poindexter.

Washington, April 28.—Two striking facts stood forth out of yesterday's primaries in New Jersey, Ohio and Massachusetts, according to watchers in Washington. 1. The strength shown by Senator Hiram Johnson, the "unreconcilable" and by Senator Lodge, leader of the fight against the treaty in congress, are taken as a sure sign that unless the Democratic candidates soon take to the open, when they do come out they will find sentiment in the country fairly christened against the Wilsonian point of view. 2. Returns from New Jersey removed all trace of doubt that the fight against prohibition at San Francisco will be something worth crossing the continent to see, with William Jennings Bryan on one side, leading the "drys" and Governor Edward I. Edwards, of New Jersey, and his cohorts on the other, heading the "wets."

## NEW ALLIED NOTE CHARGES BROKEN FAITH IS ALLEGED

Government Circles Considering Effect On Germany.

### MAY PERMIT ARMY

Germany Called Upon To Pay \$1,250,000,000 During 1920.

Berlin, April 28.—The new allied note formulated by the supreme council at San Remo and charging the German government with bad faith in its execution of the treaty of Versailles was the chief consideration in government circles today. In upper Berlin circles the note is taken as an indication of French willingness to permit Germany to increase her armed forces beyond the set figure of 100,000. Unless France is willing that this is done, government officials declared that the French military would find it impossible to explain the maintenance of a French army of 700,000 as compared with Germany's 100,000. The matter of reparations is a chief topic of discussion. It is pointed out that Germany has paid 3,000,000,000 marks (normally \$750,000,000) for foreign currency during 1919 and that materials have been delivered under the terms of the peace treaty to the value of 30,000,000,000 marks (normally \$7,500,000,000). Furthermore officials declared Germany made apology for every insult to allied representatives which has been called to the government's attention. At the finance ministry it is estimated that the amount of reparation Germany will be called upon to pay during 1920 will be 5,000,000,000 marks (normally \$1,250,000,000). The German charges d'affaires at Paris, Dr. Mayer, will present to Premier Millerand before May 10 a memorandum of Germany's financial condition. Radicals are bringing pressure to bear on the government for the dismissal of Gen. von Watter, who commanded the reichswehr forces in the Ruhr invasion because of his alleged ruthless measures of suppression.

**PARK PROJECT DEFEATED**  
Columbus, Ohio April 28.—Columbus voters yesterday turned down by a big majority an \$800,000 bond issue for a Victory Park along the Scioto River. It required two-thirds majority, but an actual adverse majority was cast against it.

### CARRIES STATE BY A BIG MAJORITY

Sen. Warren G. Harding

## CONSERVATION OF GASOLINE IS PROJECT OF U. S. SEMINARY WILL HOLD ITS LAST COMMENCEMENT

Reserve Supplies of Fuel Are Greatly Depleted—Only Enough for Six Weeks MAY LIMIT AUTO USE

Washington, April 28.—With the reserve supply of gasoline greatly depleted and with the reserve supply of crude oil sufficient but for six weeks, government officials are considering means of controlling the supply of gasoline or limiting the use of motor vehicles, it was learned today. The bureau of mines is now engaged in collecting data on the production and consumption of gasoline as a basis for recommendations for the conservation of gasoline. One remedy which has been suggested is the allocation of available gasoline under the government supervision and another plan has been advanced for restrictions upon the use of motor vehicles in order that a sufficient supply of gasoline may be assured for necessary uses. Information collected by the bureau of mines indicates that the gasoline shortage, which is acute throughout the country, is due in a considerable degree to the attempts of foreign interests to corner the world's supply of crude oil. Money borrowed by foreign interests in the United States and 5 and 6 percent interest has been used to acquire available oil lands throughout the world. This money has reduced the oil and gasoline supply in the United States. Demand for gasoline is now at the highest point it ever has been. The bureau of mines ascribes this to the greatly increased use of motor cars and particularly the increased use of motor trucks. To increase the stringencies of the situation and making the demand more acute, the bureau of mines has found that the quality of gasoline has rapidly deteriorated since 1915.

Final Exercises Before School Moves Location Will Be Held Next Wednesday. HAS SMALL CLASS THIS YEAR

The last commencement exercises to be held by Xenia Theological Seminary, as a Xenia institution, before its relocation in St. Louis will take place in the First United Presbyterian Church next Wednesday evening. The last graduating class in Xenia will consist of only three members, and is the smallest list of graduates to be turned out by the local school in many years. War made its inroads upon the student body, and virtually every able bodied man in the ranks of the students responded. This is the reason for the small class of young ministers which is being given to the world by the school this year. Two members of the graduating class are foreigners. One a native Egyptian, Aziz Mikael, whose home is at Qus, Egypt, will go back to his native land as a Christian missionary after his graduation. Sidney Alfred Tamblin, an Englishman, whose home is near London, intends to remain in this country, and has accepted a call to a pastorate at Pindley. William C. Ball, the other graduate will engage in home missionary work among the mountaineers of Tennessee. Mr. Ball spent a year and a half in the service, returning to complete his theological training. The commencement festivities will begin with the dinner honoring the seniors and faculty, to be given by the under classmen at the First Church Friday evening. The Aid Society will serve the dinner. This affair is annually the chief social event of the commencement season. The alumni banquet will be held in the dining room of the First Church Wednesday evening at 6:30, prior to the graduation exercises. Dr. Jesse Johnson will deliver the baccalaureate address at the Second United Presbyterian Church next Sunday evening.

## HOUSE TO PROCEED WITH INVESTIGATION OF POST'S ACTIVITIES

Washington, April 28.—The house rules committee has decided to go ahead with its investigation of the activities of Louis A. Post, assistant secretary of labor, in connection with alleged interference with the deportation of alien "reds" and anarchists, with a view to the bringing of impeachment charges. Several leaders in the house have been urging that the impeachment resolution be withdrawn and that there be substituted a simple resolution of condemnation of Post and a request of President Wilson that the Assistant Secretary of Labor be removed from his position. While some members of the house rules committee have indicated a willingness to follow this more lenient plan they have been overruled by a majority of the committee. The investigation of Post that has now started is to be searching in its character and there will be a probe of his every ruling on a deportation case where the alien has escaped removal from this country.

### POTTERY WORKERS FOR JOHNSON; HIT HARDING

East Liverpool, April 28.—As a result of the action of representatives of 65 labor unions in the East Liverpool district in endorsing Senator Hiram Johnson, Republican, scores of pottery and railroad workers in East Liverpool and Wellsville voted for the Californian yesterday. Senator Harding's vote is materially reduced because of labor's opposition, although he is expected to carry East Liverpool and Columbiana county.

### PATIENT HANGS HIMSELF.

Indianapolis, Ind., April 28.—Dr. L. E. Cox, 37 years old, of Greenwood, ended his own life at a sanitarium here, by hanging himself from a bedpost. He suffered a nervous breakdown a few weeks ago.

### METAL WORKERS STRIKE

Marseilles, April 28.—A general strike of metal workers was called today. The employees in the naval building were affected by the strike order.

## SCHOOL BOND ISSUE PASSES; WOOD LEADS HARDING IN GREENE COUNTY

### EAST END VOTERS CARRY ISSUE OVER OTHER PRECINCTS

Wood Given Close Majority In Greene County.

### DELEGATES WOOD'S

School Bond Issue Carries By 109 Votes Tuesday. Voters in Xenia school district voted to issue bonds in the sum of \$550,000 for the purpose of erecting two new high schools in this city, at the special election held in connection with the Ohio primary Tuesday. The voters gave the project a majority of 107 votes, the total vote on the question being 865 for the issue of bonds and 756 against it. The issue was carried in Precincts G and H, the East End precincts, which gave the issue a huge majority, and overcame the slight lead gained by those against the bond issue in the other precincts to report.

General Leonard Wood carried Greene county by a substantial majority in the presidential preferential campaign Tuesday, voters of this county giving the military candidate 1323 votes as against 1134 polled for Harding. Wood holding a majority of 189. In Xenia City the preferential vote was also carried by Wood, who received 761 votes to 624 polled for Harding.

Many names were written in the preferential vote, Herbert Hoover polling probably 150 votes in the county, while Hiram Johnson led him a close race and votes were also cast for Lowden and other presidential possibilities. On the Democratic possibilities, James M. Cox being the only ticket, led the list of names written on ballot. Names of Champ Clark, McAdoo, Woodrow Wilson, Bryan, Herbert Hoover and Edwards, the wet governor in New Jersey, being written in.

For the Republican delegates the vote ran about the same proportionally as the Wood and Harding preferential. There was no contest for the Democratic delegates, either for the state or national convention, and there was no contest for Republican delegates to the state convention. The vote on delegates at large was as follows: Boyd, pledged for Wood, 1023; Daugherty pledged for Harding, 1143; Galvin pledged for Harding, 906; Herrick pledged for Harding, 978; Turner pledged for Wood, 999; Willis pledged for Harding, 1036. The Wood delegates, Thomas B. Owens and Oliver Tate, the latter of this city, defeated the Harding delegates in this county in the contest for district delegates to the convention. Owens polling 908 votes and Tate 967, while L. E. Evans received 556 votes and George W. Wilber was given 488.

There was no contest for alternates at large to the Republican national convention, as all were Harding men. The four elected were Daniel C. Brower, Charles Cottrill, Edwin Jones and Harry L. Vail. There was also no contest on delegates and alternates to the state convention, the delegates elected being C. H. Ellis, O. S. Hargrave, N. N. Hunter, J. W. Johnson, R. A. Kelly, H. C. Messenger and W. H. Shields, while the alternates were S. C. Wright, J. S. Ayres, Elbert Babb, Harper Bowermaster, George A. Confer, Herbert Conklin and S. Frank Cresswell. Elwood Washington and Wm. Grant Webster ran on the Republican tickets for vice president, and the race was close. The election has no bearing on the vice presidential results however.

The Democratic delegates at large elected were Campbell, Harmon, Moore and Pomeroy, there being no contest. The alternates will be William Greene, Lazarus Kahn, George S. Long and John L. Shuff. The Democratic district delegates to the national convention will be M. R. Denver and W. S. Thomas. The alternates from the district will be W. P. O'Brien and J. D. Post. The Democratic delegates to the state convention will be John Alexander, J. M. Fletcher, W. F. Harper and Michael Ryan. The alternates to the state convention will be L. H. Barkman, F. M. Burrell, J. E. Mitchell and D. L. Reed.

The only local issue outside of the Xenia school bond issue was at Cedarville, where the voters passed a bond issue of \$8,000 to purchase motor vehicles to use to haul school children to the centralized school. It is said that this issue passed by an almost two to one vote.

## NO LIMITATION ON WHISKY FOR MEDICINAL USE

Kramer Denies That Any Limit Has Been Placed on Prescriptions.

### DOCTORS ALLOWED PRIVILEGE

Washington, April 28.—No limit has been placed upon the number of whiskey prescriptions a physician may issue to supply legitimate needs. Emphatic denial was made today by John F. Kramer, federal prohibition commissioner, that any limitation had been put upon doctors. Contrary reports, which gave the impression that the commissioner sought to restrict permit holders among doctors, probably were based upon instructions sent to supervisors to check illegal use of prescription blanks, the commissioner stated. No limitation whatsoever has been put upon the number of prescriptions a physician may issue to meet the normal demands of his practice. Commissioner Kramer said: "No order of any kind has been issued that could be construed as a limitation of this privilege given to doctors by the national prohibition law. "Erroneous reports stating that doctors could not use more than a certain number of blanks over a given period, may have been based upon a letter of instructions sent out by me designed to check exceptional cases of violation. For instance, one doctor issued 475 prescriptions in one day. That is the type of doctor who does not deserve a permit. "Reputable physicians are as keenly interested as we could be in protecting the profession against the abuse of a certain class of practitioners. This class is small but plainly they do not reflect credit upon others of the profession."

## MERCHANT MARINE PROVIDED IN BILL

Washington, April 28.—An American merchant marine operated under a re-organized shipping board is provided in a bill reported favorably to the senate this afternoon by Senator Jones, Republican of Washington, chairman of the Senate Commerce Committee. The bill specifies that the board establish steamship lines, and trade routes to the world markets to promote and develop American foreign commerce "under private ownership or through private enterprise if possible, and through government operation if necessary."

### BOOZE WORTH \$20,000 SEIZED AT TOLEDO

Toledo, April 28.—Federal agents seized \$20,000 worth of liquor in Michael Hoeflinger's undertaking establishment here. The undertaking said the liquor had been stored for safe-keeping in his basement by the proprietor of a downtown hotel. It included eight barrels of what the officers say is macoschina.

## HARDING SWEEPS STATE BY 25,000 CLAIMS MANAGER

Forty Two Out of 48 Delegates Go To Harding?

### WOOD CLAIMS EIGHT

Little More Than Half of All Precincts Report. Columbus, O., April 28.—Secretary of State Smith this afternoon announced that unofficial returns received from 3,357 precincts, scattering, out of Ohio's 5,882 precincts give Harding 73,111; Wood 72,167; Johnson 8,181; Hoover 6,845. Practically the same returns give the following results in the contest for delegates at large: Boyd 69,809; Daugherty 56,522; Galvin 69,263; Herrick 75,673; Turner 67,996; Willis 65,260. Harding headquarters at 3:30 this afternoon claimed that the Harding vote on the preferential primary would be in excess of 25,000 majority over Wood. District delegates at large claimed that 42 of the 48 Ohio delegates to the Republican national convention are Harding men. Harding headquarters is claiming that all the Harding men on the "Big Four" have all been elected. No more figures will be given out from the Secretary of State's office until Thursday morning.

Columbus, O., April 28.—Although leaders at Harding headquarters this afternoon claimed that 42 of the 48 Ohio delegates to the Republican national convention are Harding men, it was expressed at Wood state headquarters that at least eight Wood delegates, and probably nine more, chosen in Ohio.

Six Wood delegates were elected in the twelfth (Columbus), sixteenth (Canton) and 22nd (Cleveland) districts, it appears. That complete returns will also show the election of Judge Bernard, Youngstown and Stephen Lewis, Martins Ferry, both Wood men, as the belief voiced by Major General Glenn, of Wood state headquarters. The possibility that Wm. H. Boyd, Cleveland, Wood man, has defeated Harry M. Daugherty, Harding leader, for delegate at large, still looms up. Unofficial returns from 2,801 out of Ohio's 5,882 precincts give Harding 68,068; Wood 66,012; Johnson 8,076; Hoover 6,768. The Democrats selected a solid Cox delegation to their national convention, Ohio's governor being unopposed. In registering their presidential preference a small number of the Democratic voters wrote in the names of Bryan, McAdoo and Hoover.

Most of Johnson's votes were cast in the industrial and railroad centers. Hoover's main strength was in Hamilton county where he received 4,695 votes. The greatest strength displayed by General Wood was in Franklin county and in northeastern Ohio the western reserve district. This section of Ohio for years has been strong for men espousing Rooseveltian ideals. Wood carried Cuyahoga county by 8,000 and Franklin county by 2,000 votes. Senator Harding carried Hamilton county by 18,000; Lucas county by over 15,000; Montgomery county by over 10,000 and Summit county by a four to one vote.

It is estimated that about 225,000 Republicans, or little over 40 percent of the total Republican vote, went to the polls in Ohio yesterday. Marion for Harding. Marion, O., April 28.—Fifty precincts out of 51 in Marion county give Harding 2388; Wood 235; Johnson 110; Hoover 35. Eighth district delegates, for Harding: Donahen 1881; Lewis 1792. For Wood: Doran 193; Grant 262. State delegates to national convention: For Harding: Willis 2002; Herrick 2118; Daugherty 1925; Galvin 1841. For Wood: Boyd 410; Turner 296.

Wood Wins Springfield. Springfield, O., April 28.—Wood defeated Harding in the presidential preference primary by a majority of about 200. Clark county also gave the Wood district delegates majority, although they lost in the district. The million dollar school bond issue was approved by a majority of 200.

## BELLBROOK

Mushrooms are being found in small numbers and small in size.

## Nuxated Iron Helps Make Red Blood

The Kind That Puts Roses Into the Cheeks of Women and Force, Strength and Courage Into the Veins of Men

Watch the People You Meet On the Street—You Can Tell Those Who Have Plenty of Iron in Their Blood—Strong, Healthy, Vigorous Folks

## Cut this Out

## Sworn Statement of the Composition of the FORMULA of Nuxated Iron

It is conservatively estimated that this valuable formula is now being used by over three million people annually. Among those who have used and strongly endorse it are many physicians who have been connected with the best hospitals and medical societies, former United States Senators and Vice-Presidential nominees, Chas. A. Towne, of Minnesota; Lynceus Jan Padlewski, Ex-Premier of Poland and master Planist; Judge Atkinson of the United States Court of Claims at Washington; Wm. L. Chambers, Commissioner of the United States Board of Mediation and Conciliation at Washington, and former Health Commissioner Wm. E. Kerr, of Chicago.

Newspapers everywhere are invited to copy this statement for the benefit of their readers. It is suggested that physicians make a record of it and keep it in their offices so that they may intelligently answer questions of patients concerning it. Everybody is advised to cut it out and keep it. A copy of the actual sworn statement will be sent to anyone who desires such. It is as follows: Iron Peptonate, Sodium Glycero-phosphate, U. S. P. (Monosanto), Calcium Glycero-phosphate, U. S. P. (Monosanto), P. E. Nux Vomica, U. S. P. (Monosanto), Magnesium Carbonate Po. Ginger U. S. P. Oil Cassia Cinnamon Precip. U. S. P. Calcium Carbide Precip. U. S. P. Each dose of two tablets of Nuxated Iron contains one and one-half grains of organic iron, in the form of iron peptonate, of a special specific standard, which in our

opinion possesses superior qualities to any other known form of iron. By using other makes of Iron Peptonate we could have put the same quantity of actual iron in the tablets at less than one-fourth the cost to us, and by using metallic iron we could have accomplished the same thing at less than one-twelfth the cost; but by so doing we must have most certainly impaired their therapeutic efficiency. Glycero-phosphates used in Nuxated Iron is one of the most expensive tonic ingredients known. It is especially recommended to build up the nerve force and thereby increase brain power, as glycero-phosphates are said to contain phosphorus in that particular state so similar to that in which it is found in the nerve and brain cells of men. As will be seen from the above, every important ingredient of Nuxated Iron (Iron Peptonate and Glycero-phosphates) are very expensive products as compared with most other tonics. Under such circumstances the temptation to adulteration and substitution by unscrupulous persons, is very great and the public is hereby warned to be careful and see every bottle is plainly labeled "Nuxated Iron" by the Dr. Head Laboratories, Paris, London and Detroit, U. S. A., as this is the only genuine article. If you have taken other forms of iron without success, this does not prove Nuxated Iron will not help you. Manufacturers of the so-called Iron are not so secret, however, but on which is well known in drug stores everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not irritate the stomach, does not cause constipation, and in case of acute illness, but only as a tonic, strength and blood builder in the case of chronic weakness. Always consult your family physician and be guided by his advice. If in doubt as to whether or not you need a tonic, ask your doctor, as he will not wish to sell you Nuxated Iron if you do not require it. If you should use it and it does not help you, notify us and we will return your money. It is sold by all druggists.

Sold in this city by Sohn's Drug Store and all other good druggists.

## NEWSPAPER REVEALS ALLEGED PLOT FOR GERMAN UPRISING

Berlin, April 27.—The nationalist newspaper Deutsche Leitrig revealed today what is alleged to be a new plot for a communist uprising in Germany which had for its object the seizing of more than a dozen German cities and the immediate de-

claration of soviet republic. Among the cities to be seized are Wittenberg, Tangermunde, Hanover, Brunswick, Munden, Göttingen, Cassel, Gotha, Jena, Leipzig, Halle, Bismarck and Halberstadt, Berlin not included.

Details of the plot included the blowing up of railroad bridges, and destroying every means of communication in order to paralyze the movement of the reichswehr. According to the newspaper a secret red army of 40,000 men already has been formulated to carry out the plot.

## Remember when the first automobile came to town

TODAY there are more than 7,000,000 of them in the country. Pretty soon nearly everybody in this section will be traveling around in his own automobile.

The first thing a man wants to know nowadays, when he starts out to buy a car, is how much it is going to cost him to keep it running.

It's all very well to take some dealer's word about a tire—if you know who he is and his object in selling it to you.

Our object in selling U. S. Tires is to have you come back for more—and be glad

that we sold them to you.

U. S. Tires have a record behind them.

They are built by the people who perfected the first straight side automobile tire, who produced the first pneumatic truck tire.

Two of the greatest contributions to tire and motor economy ever made.

As representatives of the oldest and largest rubber concern in the world, we have a reputation to live up to. We can't afford to substitute "just as good" tires for tires of standard quality.

## STOCK MARKET HAS IRREGULAR OPENING

New York, April 28.—The stock market was irregular at the opening today with business quiet and price changes confined to fractions.

Steel common reflected disappointment over the failure of the directors to declare extra dividends at the meeting yesterday and fell 1-8 to 96-3-4. Other steel stocks were also established at lower levels. Baldwin locomotive yielded one point to 114-1-2 and Bethlehem Steel 1-7-8 to 89. Republic Steel fell to 96-1-2. Crucible after falling to 235 had a quick raise to 239.

Reading continued prominent, advancing 2-1-8 to 89-3-8 while Southern Pacific rose over 1 point to 95-3-8 and fractional upturns were made in other rails.

The oil issues were in supply. Mexican petroleum falling 3-4 to 167-1-4; Pan American petroleum 3-4 to 92-3-4 and Royal Dutch to 109-1-2.

General Motors sold off 8 points to 304 while Studebaker rose 1-1-8 to 110-3-4. American Woolen dropped 1-1-2 to 123-1-4 and then rose 2 points.

## POLISH TROOPS IN DRIVE ON RUSSIAN LINES TAKE BOOTY

London, April 28.—Polish troops operating on a wide front have driven deep into Russian lines between Volhynia and Podolia, capturing Jitomir and taking considerable booty, according to a news agency dispatch from Warsaw today.

The Poles began driving forward in a general offensive along a front of nearly 200 miles on Sunday. They were almost immediately successful according to Warsaw advices. Their advance already has carried them nearly 80 miles in a straight drive to the northeast.

Included among the Russian forces met and defeated in the advance were the 58th infantry division and the 17th cavalry division.

The booty captured includes 160 locomotives and 2,000 railway cars, of which both the Poles and the Russians are in great need.

The offensive is continuing beyond Jitomir.

FACTS

SYMES FARM OIL & GAS LEASE ENTERPRISE IS A CO-PARTNERSHIP  
Not a corporation. This means that every investor is an equal partner; not like a stockholder in a corporation who gets small dividends, but you share and share alike with all other shareholders in this enterprise; assuring big returns on your initial outlay. 1,500 shares, totaling \$150,000.00 is being raised—just enough to drill 5 wells. Act quick and get in on our 5% payment plan.

FACTS  
Editorial in the Gazette Times, January 20, 1920  
CHANCES OF STRIKING OIL.  
The big producers are being found by drillers in the southwestern fields of the United States, but there is more certainty of "striking oil" in Pennsylvania, where the product commands the highest price and the wells last long. The country over, the driller's chances are approximately four to one in favor of getting oil; in Pennsylvania he has approximately nine chances of success to one of a failure. This we learn from the Oil City Derrick's report of drilling operations during 1919.

FACTS  
In the United States as a whole 23,462 wells were completed, of which 5,361 were dry, or non-productive; in Pennsylvania the completions totaled 5,175, of which only 613 brought total disappointment to the owners. The chief reason for the discrepancy is apparent. In the newer fields there is genuine wildcatting; the oil bearing acres of Pennsylvania are well defined. But the risk one runs in drilling an oil well is not wholly exposed by the figures quoted. It is not precise to say that there is a 9 to 1 chance of success in Pennsylvania, for if one fails his loss is virtually total as to that well. And so it is wherever one drills. But if one gets oil he may, at present prices, have the equivalent of a fortune in a comparatively small producer. It is an alluring hazard. That is what the unprecedented prices offered for crude are intended to make. Apparently they are proving effective, but the new production is not sufficient to balance the demand, which is growing at a prodigious rate. Therefore still higher prices may be expected. The prospective reward must balance the risk that is taken in any form of gambling and drilling for oil, wherever it is undertaken, is a gamble.

FACTS

## STOCK MARKET HAS IRREGULAR OPENING

New York, April 28.—The stock market was irregular at the opening today with business quiet and price changes confined to fractions.

Steel common reflected disappointment over the failure of the directors to declare extra dividends at the meeting yesterday and fell 1 1/8 to 96 3/4. Other steel stocks were also established at lower levels. Baldwin locomotive yielded one point to 114 1/2 and Bethlehem Steel B 1 7/8 to 89. Republic Steel fell to 96 1/2.

Crucible after falling to 235 had a quick rise to 239.

Reading continued prominent, advancing 2 1/8 to 89 3/8 while Southern Pacific rose over 1 point to 95 3/8 and fractional upturns were made in other rails.

The oil issues were in supply. Mexican petroleum falling 2 3/4 to 167 1/4; Pan American petroleum 3 1/4 to 92 3/4 and Royal Dutch to 109 1/2.

General Motors sold off 8 points to 304 while Studebaker rose 1 1/8 to 110 3/4. American Woolen dropped 1 1/2 to 123 1/4 and then rose 2 points.

## CEDARVILLE RESIDENT DIES

Mrs. Ellen Tabitha Farr, wife of S. J. Farr, of Cedarville, died at the home of her son, J. V. Farr at 12 o'clock noon Wednesday. Funeral services will be held at the home Friday afternoon at two o'clock. Burial at Grape Grove cemetery.

J. E. Eavey, who has been ill for about a week, is improving. He is able to be up a little.

## IMPORTED NEGLIGEE FOR LEISURE HOUR

This beautiful imported negligee was one of many styles shown at a recent sale held by one of the shops which deal exclusively in these garments. It is hand-embroidered in beautiful shades of mauve, orange and black and the overdrape is hung gracefully over a black satin foundation.

## POLISH TROOPS IN DRIVE ON RUSSIAN LINES TAKE BOOTY

London, April 28.—Polish troops operating on a wide front have driven deep into Russian lines between Volhynia and Podolia, capturing Jitomir and taking considerable booty, according to a news agency dispatch from Warsaw today.

The Poles began driving forward in a general offensive along a front of nearly 200 miles on Sunday. They were almost immediately successful according to Warsaw advices. Their advance already has carried them nearly 80 miles in a straight drive to the northeast.

Included among the Russian forces met and defeated in the advance were the 68th infantry division and the 17th cavalry division.

The booty captured includes 160 locomotives and 2,000 railway cars, of which both the Poles and the Russians are in great need. The offensive is continuing beyond Jitomir.

## NO ACTION ON PEACE YET

Twice the Price of Texas Crude THIS IS NOT A WILD-CAT PROPOSITION There are Oil Wells all around our tract of 17 1/2 acres. Wells around our acreage have been producing 30 years. Think of the returns. 18,000 BARRELS Was the production daily of the last Sewickley boom, and no one went to the Speechley Sand.

## FACTS

Editorial in the Gazette Times, January 20, 1920 CHANCES OF STRIKING OIL. The big producers are being found by drillers in the southwestern fields of the United States, but there is more certainty of "striking oil" in Pennsylvania, where the product commands the highest price and the wells last long. The country over, the driller's chances are approximately four to one in favor of getting oil. In Pennsylvania he has approximately nine chances of success to one of a failure. This we learn from the Oil City Derrick's report of drilling operations during 1919. In the United States as a whole 28,462 wells were completed, of which 5,351 were dry, or non-productive; in Pennsylvania the completions totaled 5,173, of which only 913 brought total disappointment to the owners. The chief reason for the discrepancy is apparent. In the newer fields there is genuine wild-catting; the oil bearing areas of Pennsylvania are well defined. But the risk one runs in drilling an oil well is not wholly exposed by the figures quoted. It is not precise to say that there is a 9 to 1 chance of success in Pennsylvania, for if one falls his loss is virtually total as to that well. And so it is wherever one drills. But if one gets oil he may, at present prices, have the equivalent of a fortune in a comparatively small producer. It is an alluring hazard. That is what the unprecedented prices offered for crude are intended to make. Apparently they are proving effective, but the new production is not sufficient to balance the demand, which is growing at a prodigious rate. Therefore still higher prices may be expected. The prospective rewards must balance the risk that is taken in any form of gambling and drilling for oil, wherever it is undertaken, is a gamble.

## CANADA IS RESTLESS FOR SEPARATE NATIONALITY.

Canada's desire to establish independent diplomatic relations with the United States is now undergoing consideration at the hands of the American Government.

The British Government does not oppose Canada's ambition. They have approved it. Only the formal consent of the United States is required for its realization.

A sum of \$60,000 a year has been earmarked in the Canadian budget as the cost of maintaining a minister and a legation in Washington. The Hon. Newton Wesley Rowell, president of the Privy Council and acting minister for external affairs in the Borden government, is mentioned as Canada's first plenipotentiary to the United States.

It is suspected in Ottawa that considerable perturbation may have been caused in Washington by the Canadian proposal. The State Department must be clear in its own mind just where the prerogatives of the British empire end, diplomatically speaking, and where those of Canada begin. Canada and the mother country seem to be in complete accord on that score. The State Department may set up the contention that in accepting a Canadian legation at Washington the United States tacitly invites Australia, New Zealand, South Africa and India also to establish diplomatic relations of their own on the banks of the Potomac. With the Senate's refusal to acknowledge the right of those self-governing daughters of the British empire to vote in the League of Nations, Ottawa fears that Canada's diplomatic aspirations in Washington may not encounter smooth sailing.

Americans who have not visited the great centers of Canadian thought, like Toronto, Ottawa, and Montreal, in recent times, especially if they were not there during or since the war, can have no adequate realization of the sense of nationality that now dominates the dominion. The word "Canadianism" is encountered in the country today as frequently as is the word "Americanism" on this side of the line. Canada's longing for "nationhood" can be observed everywhere. It permeates all classes. There still is, probably, a safe majority in favor of remaining within what Sir Auckland Geddes in New York on Monday called "the frame work of the empire," but the tendency unmistakably is in the direction of decentralization as far as imperial control is concerned.

Canada demands absolutely independent treaty-making powers. There even is a movement to wrench the dominion from the imperial judicial system under which the privy council at London is the supreme court for the adjudication of Canadian disputes at law.

Canada is in no mood or mind to take part in helping Britannia to "rule the waves." Admiral Jellicoe's recent missionary campaign in the dominion seems to have proved a complete failure. Canada insists that hereafter she shall be consulted on all questions affecting peace or war for the British Empire and be at liberty to say whether or not she cares to send her sons to battle if war ensues.

## RENT REGULATION.

The rent problem, serious everywhere, has probably been worst in New York, where real estate speculation has been rampant and landlords seem to have been particularly rapacious. The new law enacted by the New York legislature is bound to make the lot of tenants more tolerable for the present. Whether it will provide a permanent remedy for rent profiteering is not at all certain.

The salient features of this legislation are that tenants cannot be ousted on short notice if they refuse to meet suddenly increased rental demands, and that they are not obliged to pay an increase of more than 25 per cent in one year. This will naturally put a stop to the practice of raising the rent 50 to 100 per cent at a jump. It will, however, furnish a good excuse for landlords who have not raised rents within the present year to tack on a virtuous 25 per cent immediately, and may encourage landlords in general to proceed indefinitely with successive raises of 25 per cent at the beginning of every year until building catches up with the demand for homes and puts a natural stop to the process.

## INTERRUPTIONS.

I HAVE a hundred tasks in mind, a hundred useful chores; I have the eight-day clock to wind, the cat to chase outdoors. I'm planting rhubarb that our pies you'll praise in glowing terms; and soon I'll have to swat the flies, and boil uncounted germs. And so it makes me tired and sad when some one takes my time, to boost some patent liver pad that retails for a dime. Oh, when the agent comes along (you know how 'tis yourself!) and springs his old accustomed song concerning six-foot shelves, and when I see him from his grip his large prospectus draw, the cup of sorrow then I sip—there ought to be a law. For I have many things to do; I have to fix my lyre, and patch up the defective flue that spoils the kitchen fire. I have to prime the cistern pump, and make the mower run; however briskly I may hump, I never will get done. And so it makes me tired and sick when I am asked to pause, and listen to some windy hick—there ought to be nine laws!

## CHATTER

In the good old days a southern colonel, according to Senator McKellar of Tennessee, called in his colored man, Sam, and gave him a drink of liquor.

"How is that liquor, Sam?" the colonel asked.

"Just right," Sam replied. "What do you mean by 'just right'?" the colonel inquired. "Well," Sam said, "if it was any better you wouldn't give it to me, and if it was any worse, I wouldn't drink it."

## "TURKEY IN EUROPE" QUESTION

## CAMPAIGN WORK USED IN LOCAL FIGHT IN DODGERS

Politicians are smiling over a smooth bit of campaign work which cropped out in the recent bond issue fight which was decided Tuesday.

During the eleventh hour campaign, on Monday night, dodgers presenting both sides of the question few thick and fast and were left at the doors of practically every business house and residence in the city. It was at this time, it is said, that one side of the issue offered a dollar a piece to the boys who would follow those passing the dodgers for the opposite side, and pick them up as soon as they were passed. They verily stole the thunder of the enemy in this way.

The action was a new one in local politics and called forth many smiles.

## JUNIOR HIGH TO GIVE PLAY

"Princess hrysanthemum" is the title of an operetta which will be presented at the Opera House Friday evening by the McKinley Junior High School Glee Club.

The entire Glee Club is used in the operetta for which the children have been training for some time. The piece is Japanese in setting.

## WOMEN'S LEGION TO MEET

Washington, April 28.—The first national convention of the American Women's Legion will be held here May 13, 14 and 15. All women relatives of men who took part in the war are being invited to organize locally and send two delegates for every 25 members. Amelioration of the conditions of the wounded soldiers, reduction of illiteracy and participation in the campaign of Americanization were named as objects of the legion.

## POVERTY BAZAAR GIVEN BY CENTRAL HIGH SCHOOL CLASS

A Poverty Bazaar will be given by the Senior Class of Central High School on Friday night April 30th at the school building for the purpose of raising funds for the Central Hi Review the school publication.

Everything that goes to make up a bazaar will be flaunting its banner on Friday night and in addition a varied program of amusements has been arranged. A side-splitting minstrel, grand opera, and a silent drama are some of the notable features. Arrangements have also been made so that those who desire may dance. An admission of ten cents will be charged at the door and the affair is open to the public.

The bazaar is rather unusual in the fact that the Senior class has lent the Review part of the money realized from the class play and are now raising funds to pay themselves back.

## CANADA IS RESTLESS FOR SEPARATE NATIONALITY.

Canada's desire to establish independent diplomatic relations with the United States is now undergoing consideration at the hands of the American Government.

The British Government does not oppose Canada's ambition. They have approved it. Only the formal consent of the United States is required for its realization.

A sum of \$60,000 a year has been earmarked in the Canadian budget as the cost of maintaining a minister and a legation in Washington. The Hon. Newton Wesley Rowell, president of the Privy Council and acting minister for external affairs in the Borden government, is mentioned as Canada's first plenipotentiary to the United States.

It is suspected in Ottawa that considerable perturbation may have been caused in Washington by the Canadian proposal. The State Department must be clear in its own mind just where the prerogatives of the British empire end, diplomatically speaking, and where those of Canada begin. Canada and the mother country seem to be in complete accord on that score. The State Department may set up the contention that in accepting a Canadian legation at Washington the United States tacitly invites Australia, New Zealand, South Africa and India also to establish diplomatic relations of their own on the banks of the Potomac. With the Senate's refusal to acknowledge the right of those self-governing daughters of the British empire to vote in the League of Nations, Ottawa fears that Canada's diplomatic aspirations in Washington may not encounter smooth sailing.

Americans who have not visited the great centers of Canadian thought, like Toronto, Ottawa, and Montreal, in recent times, especially if they were not there during or since the war, can have no adequate realization of the sense of nationality that now dominates the dominion. The word "Canadianism" is encountered in the country today as frequently as is the word "Americanism" on this side of the line. Canada's longing for "nationhood" can be observed everywhere. It permeates all classes. There still is, probably, a safe majority in favor of remaining within what Sir Auckland Geddes in New York on Monday called "the frame work of the empire," but the tendency unmistakably is in the direction of decentralization as far as imperial control is concerned.

Canada demands absolutely independent treaty-making powers. There even is a movement to wrench the dominion from the imperial judicial system under which the privy council at London is the supreme court for the adjudication of Canadian disputes at law.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arcline and pour it into a pint bottle, then fill the bottle with water that has been boiled. Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

## WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitions, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you. Seven a day for seven days—Wonderful results.

## USE KILLO FOR REAL CLEANLINESS

There's health in cleanliness. This is why every housekeeper is so diligent these days in cleaning up everything. But her best efforts are sometimes thwarted by the persistence of germs and insects which are not killed by soap and water. Then Killo is needed. Killo is a household disinfectant and insect exterminator. Germs, ants, bugs, roaches, moths, etc., cannot live when Killo is used. A little of the powder in dark closets, in sinks and drains, cellars and other such places is not only health insurance, but a sure riddance to household pests.

Killo is made by the J. W. Duffee Manufacturing Company, the reliable house that puts up Duffee's Tonic Laxative. Your druggist or your grocer will supply you.

## Coal Prices Smashed

Coal expert tells how to save \$1.50 to \$2.00 a ton on best quality coal

"Under a plan which has been successfully operated for over fifteen years, coal users can now secure their coal direct from the best mines at a saving of not less than \$1.50 a ton, and through prompt action may effect a total saving of \$2.00 a ton," said A. Galin, Sales Manager of one of the country's largest coal brokerage concerns.

"This plan enables the users to secure the very best grade of whatever coal he prefers, whether he uses five tons or a hundred tons a year.

"Our office in Chicago will gladly furnish detailed information to persons in any part of the country, showing how and when to buy their coal to the best advantage and at the biggest saving. Simply send your name and address, advising the kind of coal you prefer, and you will receive full details free of cost or obligation, telling just what we can save you in dollars and cents. Write today, Bernice Coal Company, 655 Como Building, Chicago, Illinois.

## RINGGOLD, GEORGIA. MAN WRITES

A thankful letter about the benefits received from using Sulphurb Tablets. Its effects are like grandmother's remedy of sulphur, cream of tartar and molasses. But this consists of sulphur cream of tartar and herbs in a sugar-coated tablet, easy and pleasant to use, for bad blood, stomach, liver and bowel disorders.

Mr. John M. Plemons, Ringgold, Ga., writes: "I had an awful bad case of stomach trouble and constipation and had the service of the specialist with only temporary relief. I saw an advertisement of Sulphurb Tablets and began using them—and in a short time noted very good results, and I further used them, and at this time am perfectly well as far as I can tell. I don't recommend anything unless I receive some good results. Some friends use them and they also note good results etc." Druggists sell Sulphurb Tablets everywhere. Don't take ordinary "sulphur" tablets and be disappointed.

## EAST END NEWS

Miss Anna Henderson of Dayton, spent Sunday with her sister-in-law, Mrs. Pearl Henderson and daughter, Miss Marie Anderson East Main street.

Miss Eva and Flora Leach, Mrs. Maggie Whitte and daughter, Julia, have returned from Chicago after being called there on account of the death of their brother, R. M. Leach. Mr. Leach was formerly a resident of this city and operated a grocery store on East Church street for a number of years. He moved to Chicago and conducted one of the most successful businesses in that city, known as the Leach storage warehouse. Mr. Alfred T. Leach, his nephew will continue the business as he was manager at the time of the death of his uncle.

Miss Mary Walker, who has been teaching in McOver, North Carolina, has returned home for the summer. Miss Walker was accompanied home by her cousin, Miss VeElla Brown, who will spend the summer visiting her sister, Mrs. Bethel Corbett and other relatives.

A few days ago the patrons of the schools created a contest fund for the best essay and cartoon on "Why Xenia Needs New Schools" to be divided in three prizes of \$2.00 each for the best essay written by the pupils of the Senior High, Junior High and Grades 4, 5 and 6, respectively, and three prizes of \$1.00 each for the best cartoon drawn in the same divisions. Yesterday morning Mr. Hunter, assembled the children in the hall of Lincoln school and read the decision of the judges, the prizes being awarded by them as follows: Best essay in Senior High, Lorenzo Harris; best essay in Junior High, Lois Shields; best essay in Grades 4, 5 and 6, Zella Booth, of 4th grade. Best cartoon in Senior High, Carlos Dickenson, in Junior High, Victor

Dickenson, in the grades Ethel Baker of 6th grade.

The judges also give honorable mention for splendid essays to Clarence M. Smith, Ora Locust, Bernice Gaines, Gladys Harris, Viola Shields, Mary Myall and Lena Oglesbee of the Senior High and Amanda Porter, Cyrus Taylor, Ernestine Ross and Kathryn Scurry of the Junior High; honorable mention for cartoons, Clifford Green and Gertrude Holmes of the Senior High, and William Tibbs and Ernest Ross of the Junior High.

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a world of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you. Seven a day for seven days—Wonderful results.

## VETERANS WILL MEET

Omaha, Neb., April 28.—C. E. Adams, chairman of the national committee for the Federation of All War Societies today called a meeting of committees of the G. A. R., Spanish War Veterans, American Legion, Veterans of Foreign Wars and World War Veterans to be held at Washington, May 14.

## WABASH LEVEE BREAKS

Evansville, Ind., April 28.—A loss estimated at \$500,000 resulted when the Wabash river levee near Oak-town, Ind., gave way yesterday and water swept over 10,000 acres of land sowed in wheat.

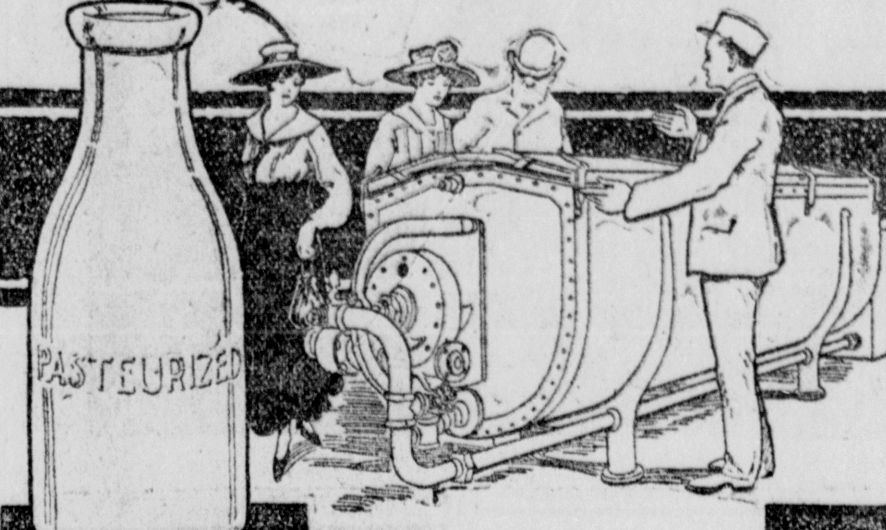

## INDICTED FOR PROFITEERING

Syracuse, N. Y., April 28.—Weed's Inc., Binghamton clothiers were indicted on charges of profiteering. One of the eight counts was based on testimony of T. B. Grady, million-dollar clothing dealer, that he paid \$60 for a suit of clothing costing \$32.50.

## USE KILLO FOR REAL CLEANLINESS

There's health in cleanliness. This is why every housekeeper is so diligent these days in cleaning up everything. But her best efforts are sometimes thwarted by the persistence of germs and insects which are not killed by soap and water. Then Killo is needed. Killo is a household disinfectant and insect exterminator. Germs, ants, bugs, roaches, moths, etc., cannot live when Killo is used. A little of the powder in dark closets, in sinks and drains, cellars and other such places is not only health insurance, but a sure riddance to household pests.

Killo is made by the J. W. Duffee Manufacturing Company, the reliable house that puts up Duffee's Cough Syrup and Duffee's Fifty-Fifty Tonic Laxative. Your druggist or your grocer will supply you.

## We Invite You to Inspect Our Dairy

A first-class dairy should be cleaner than the cleanest kitchen. There must not be a place where dirt can find a stopping place.

We invite you to inspect our dairy—to see how scrupulously clean it is kept all the time.

You will be delighted to witness the method we employ for pasteurizing all the milk and cream we sell. We never permit any of our milk to leave this dairy until we know it has been thoroughly pasteurized.

You can take a sample of any of our milk or cream, have it analyzed, and you will find that it is 100% PERFECT in food values, that it contains every ounce of the body building properties GOOD milk should contain.

Sparkling eyes, clear skin, good teeth, ruddy cheeks, snap, "pep"—the joy of life—belong to all who drink plenty of good, fresh pasteurized milk every day.

## "THAT LITTLE GAME" — "IF"

THIS PELICAN NEVER HAD LUCK WITH "BLACK FLUSHES," AND THE OTHER NIGHT WHEN HE AGAIN HAD A "BLACK FLUSH" BEAT HE SWORE THAT HE WAS "OFFA BLACK FLUSHES FOR LIFE."

HE MUST HAVE MEANT IT! HE'S DITCHING A SPADE FOUR FLUSH.

THEN I'LL OPEN.

THREE SIX SPOTS

BUT YOU KNOW THAT A BIRD ISN'T GOING TO TOSS AWAY A FOUR FLUSH WITHOUT BEING A LITTLE INQUISITIVE.

SO HE SAYS TO THE BIRD ON HIS LEFT —

WHAT WAS THAT FIRST CARD YOU GOT ON THE DRAW?

THE SIX OF SPADES.

HASN'T FATE A NASTY DISPOSITION, — BROTHER? IF OLD SUPERSTITIOUS HAD "STAYED" HE'D HAVE HOOKED THAT SIX OF SPADES ON THE DRAW, FILLED HIS FOUR FLUSH AND BEAT THE OTHER BIRD'S "THREE SIXES."

BUT HE DIDN'T,

IF YOU KNEW WHAT HE WAS THINKING YOU'D BE SURPRISED.

SO THIS GUY GETS THE GRAY WITH "FOUR SIXES."

HAW! DID YOU WANT THAT "SIX"?

## "JUST ONE" IS ALL

One Tablet Always Right Dosage Because "They Never Wear Out." No other laxative in the world can honestly make the above claim. All others soon cease to give results without constant increase of dosage.

They may be good at first, but the system gets used to them and refuses to respond so readily.

"Just One" is the new idea laxative. Twenty different laxatives in one box. Each of the 20 tablets is a different and successful laxative formula. You change laxatives every dose you take. You have to change you cannot overlook it because there is only one of each kind in each package.

It's very injurious to keep pounding away on the same organ with the same laxative day after day. The organ becomes callous and unresponsive. Then you must either double the dose or get another laxative.

"Just One" works on first one organ and then another. It gets results, but the system has no chance to get used to it. That's why it "never wears out."

You've been waiting for "Just One." So get a box today. Any druggist anywhere can get "Just One" for you or we will mail it postpaid upon receipt of 25 per box. Farnstone Chemical Co., Council Bluffs, Ia.

## Be Good, Little Daughter—Really Good

"Be good, little daughter—really good."

Years later, when circumstances changed Zena from a society girl into a working girl, when life was hard and temptations many—those words, echoing in her memory, carried her through—through to success and happiness and true love.

## Beauty Chats

### LETTERS

Mary D.—Witch hazel is an excellent astringent and also keeps the skin smooth and soft. The witch hazel you purchase is quite all right to use. The percentage of alcohol need not worry you if you use cold cream when you use this astringent. I only advise witch hazel without cold cream when a woman has a very oily skin, or in hot summer weather when the skin is apt to exude an unusual amount of oil. Otherwise the face treatment is as follows:

Wash the skin clean with some mild soap, such as castile, and hot water. Rinse with hot water and massage in a small amount of cold cream. Wipe off as much as possible and then rub in a little pure witch hazel. If you wish, you may use ice which is even more astringent and which is excellent in any treatment of wrinkles.

If you notice the wrinkles so plainly on your face at your age you are either very nervous or you have an unusually dry skin. You had better use a cold cream containing either almond or olive oil.

Emmy—I have published several chats recently about spring clothes and the adaptability of the new styles to various types of figures. You are unusually small and, as you are slender, you should be able to wear the very youthful styles. A suit or a dress with an accordion pleated skirt and an Eton jacket would be becoming to you, because it would accentuate your slenderness and would not break up the lines of your figure.

As you are fallow, you had better choose dark colors and wear either cream color or very pale pink blouses instead of white.

Choose the straight-line, one-piece type of dress when possible, and simple tailored blouses. If you have evening frocks or summer dresses of very soft materials such as chiffon or voile, you can have them made as frilly as you like.

I would imagine that the most becoming way for you to do your hair would be to part it at the side and fluff it lightly over the ears making a knot high in the back. As you say in your letter, I do "detest" the exaggerated puffs which many girls are now wearing; you can get a much more becoming effect by making your hair soft and fluffy at the sides of the face, and you will avoid a very harsh and a very cheap method of hair dressing.

### MUSIC CLUB HEARS RUSSIAN MUSIC

A program of modern Russian music was rendered by the fourth division of the Xenia Woman's Music Club at the home of the Misses Steele Monday afternoon.

Miss Emma Davidson was the leader, and read the club paper. Miss Stella Bishop and Mrs. Robert Bryson were the accompanists for the afternoon.

The program opened with a piano duet by Miss Bishop and Miss Steele, "At the Convent," by Dorodin. Miss Davidson sang a number by Rachmaninoff, "O Thou Billowy Harvest Field," which was followed by two piano numbers: A nocturne, by Scriabin, and Barcarolle by Rubenstein, rendered by Miss Margaret Steele.

Mrs. Steele Poague rendered a nocturne by Balakirev, and "Deep Hidden in My Heart," by Arensky. Miss Bishop gave as a piano number Barcarolle by Moszkowski. A group of two songs was given by Mrs. Graham Bryson, "Three Birds," by Cesar Cui, and "Song of India," by Korsakov. Mrs. J. P. Shumaker sang a melody and a Prelude by Rachmaninoff.

The next number was a Victor record "Song of the Sea" by Moussorgsky, sung by Oscar Siegel. Mr. Siegel was the instructor under whom Mrs. Meredith and Miss Davidson studied in Paris. Miss Davidson and Mrs. Meredith sang as a duet numbers by Tschai-kovsky, "Pique two Dame" and "Morning Glow."

The program ended with the Prelude in C Sharp Minor by Rachmaninoff, by Misses Bishop and Steele.

The Club is making preparations for the cantata "King Rene's Daughter," which is to be given by the club chorus at the First United Presbyterian church May 18, under the direction of Mr. Earl Gebhart of Dayton. Mr. Gebhart, who is one of Dayton's best known singers, is expected to sing a group of songs in connection with the program.

## WITH THE WOMEN OF TODAY

By Edith Moriarty

The distinction of being the first woman to head a state delegation to a national convention is enjoyed by Mrs. Manley L. Fosseen, of Minneapolis, Minn. Mrs. Fosseen was elected delegate-at-large by acclamation at the Minnesota Republican convention recently held in St. Paul.

Mrs. Fosseen is a very motherly and charming woman, the kind one never expects to see in politics, but the kind one always hopes will enter public life. She has long been active in suffrage work and is president of the Minnesota League of Women Voters. Her husband is a prominent attorney of Minneapolis and was a former member of the Minnesota state senate. According to the reports from various states which are appointing women as delegates to the Republican national convention to be held in Chicago the "feminine touch" will surely not be lacking.

**ABOUT WOMEN LAWYERS**  
Since Montana has been admitted to the union her supreme court has granted licenses to twenty women to practice law. The first woman to appear at the bar as an advocate still appearing at the bar as an advocate in the larger centers of the state.

The late Ella L. Knowles was the first woman to be admitted, which occurred on Dec. 26, 1889. She was a prominent figure in Montana life at the time. She entered the political field far in advance of her cohorts of femininity who are now voting. Miss Knowles campaigned actively against Henry J. Haskell of Glendive, who was elected attorney general. Recognizing her ability, he appointed her an assistant in his office and later they were married. Mrs. Haskell was widely known as a fluent speaker and a keen advocate in the court room. She practiced law in Butte for many years.

Between 1889 and 1911 there were five women admitted and in the last seven years fifteen have been admitted.

**STARTLING STATISTICS**  
Women bear the major part of the burden of Japan's sudden industrial expansion, where they form two-thirds of the 2,000,000 factory workers; of the 200,000 recruited annually from the rural districts 120,000 never return; 80,000 are broken in.

## WHY BE DULL AND LANGUID THIS SPRING?

"Spring Fever" Is Natural, But to Sluggish Blood

Keep Feeling Your Happiest

Purify and Tone Up Your Blood With That Famous Tonic,

Do you seem unable to do any work to concentrate, to take any interest in things, during the wonderful Spring days? Do you feel just useless and "no account?"

Nothing is really the matter, except that, as happens every Spring, your blood is clogged—it is sluggish with poisons from its long Winter fight.

In time, your blood will probably adjust itself. But meanwhile you fret and worry, feel unhappy—and accomplish nothing. Why do it, when it is easy to clear up your blood by taking Pepto-Mangan for a while? For thirty years, doctors have been recommending this effective and agreeable tonic to purify and build up the blood of run-down listless people.

Feel your best. Have a fine color, and spring in your step. Be vigorous, happy, red-blooded. Get a bottle of Pepto-Mangan today. The nearest

Pepto-Mangan Not Necessary—It's Due

druggist has it, and in either liquid or tablet form, just as you prefer. There's no difference in medicinal value.

But be sure you get the genuine Gude's Pepto-Mangan. Ask for it by that name—"Gude's Pepto-Mangan," and be sure the full name is on the package.—Advertisement.

health, 14,000 are consumptive; 82 per cent of workers under fifteen years of age are girls; in many factories one half of the girls go wrong in the first year of service; a large proportion of the factory products are made from America.

## GLASS OF WATER AFTER ASPIRIN

Bayer Company, Who Introduced Aspirin in 1900, Give Proper Directions.

The Bayer Company, who introduced Aspirin tell in their careful directions in each package of genuine "Bayer Tablets of Aspirin" that to get best results one or two glasses of water should be drunk after taking tablets. "Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Then you are getting the genuine, world-famous Aspirin, prescribed by physicians for over eighteen years.

Each unbroken "Bayer" package contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis and Pain generally.

Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

## FELT LIKE KNIFE WAS BEING STUCK INTO MY BACK

Sandusky man suffered agonies from lumbago, backache, kidney trouble, and rheumatism.

Nothing helped him until he got Dreco, the great root and herb medicine.

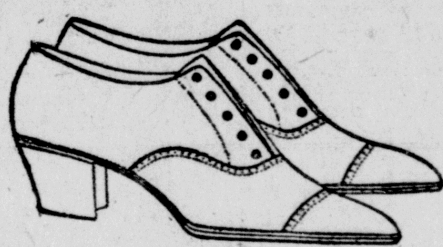

"If some one had stuck a knife into my back, it would not have hurt any more than my back and side did from lumbago and rheumatism," said Mr. John Rider of Cottage A, Soldier's Home, Sandusky, O.

"Only those who have this trouble realize my feelings, for you have to go through it to know what the suffering is like. I was in misery all the time and when I would lie down could hardly turn over and when I'd get in a chair I'd hate to get up on account of the pains. My sleep was badly broken and I was getting weak. My stomach was in a very weakened condition from the strong medicine I took for my rheumatism. I was taking two kinds of medicine for rheumatism when I read of Dreco and put both aside for this new medicine. Dreco proved in a few days that it was real medicine for I soon saw the effects. My pains got easy, my sleep became sound, the backache passed away and I could get up and down without pain, my stomach got better and my food now agrees with me. I'm still taking Dreco for I want to give it a fair chance to get me absolutely right again and I feel it can do this."

Natural remedy that restores the natural functions of the human body is a health-making remedy. The use of Dreco, the great herb medicine, tends to restore the appetite, to procure natural digestion, which is followed by an increased circulation and nutrition of the whole body. Lean, haggard, bloodless people begin to gain weight, strength and flesh at once from taking Dreco, as they themselves declare in signed testimonials.

All good druggists now sell Dreco and it is being specially introduced in this city by

## "THAT LITTLE GAME" — "IF"

THIS PELICAN NEVER HAD LUCK WITH "BLACK FLUSHES," AND THE OTHER NIGHT WHEN HE AGAIN HAD A "BLACK FLUSH" BEAT HE. SPORE THAT HE WAS "OFFA BLACK FLUSHES FOR LIFE."

HE MUST HAVE MEANT IT! HE'S DITCHING A SPADE FOUR FLUSH.

THEN I'LL OPEN.

BUT YOU KNOW THAT A BIRD ISN'T GOING TO TOSS AWAY A FOUR FLUSH WITHOUT BEING A LITTLE INQUISITIVE.

SO HE SAYS TO THE BIRD ON HIS LEFT —

WHAT WAS THAT FIRST CARD YOU GOT ON THE DRAW?

THE SIX OF SPADES.

HASN'T FATE A NASTY DISPOSITION, — BROTHER? IF OLD SUPERSTITIOUS HAD "STAYED" HE'D HAVE HOOKED THAT SIX OF SPADES ON THE DRAW, FILLED HIS FOUR FLUSH AND BEAT THE OTHER BIRD'S "THREE SIXES."

BUT HE DIDN'T.

IF YOU KNEW WHAT HE WAS THINKING, YOU'D BE "SURPRISED."

SO THIS GUY GETS THE GRAY WITH "FOUR SIXES."

HAW-DID YOU WANT THAT SIX?

One Tablet Always Right Dosage Because "They Never Wear Out." No other laxative in the world can honestly make the above claim. All others soon cease to give results without constant increase of dosage.

They may be good at first, but the system gets used to them and refuses to respond so readily.

"Just One" is the new idea laxative. Twenty different laxatives in one box. Each of the 20 tablets is a different and successful laxative formula. You change laxatives every dose you take. You have to change you cannot overlook it because there is only one of each kind in each package.

It's very injurious to keep pounding away on the same organ with the same laxative day after day. The organ becomes callous and unresponsive. Then you must either double the dose or get another laxative.

"Just One" works on first one organ and then another. It gets results, but the system has no chance to get used to it. That's why it "never wears out."

You've been waiting for "Just One." So get a box today. Any drug-gist anywhere can get "Just One" for you or we will mail it postpaid upon receipt of 25 per box. Ferritone Chemical Co., Council Bluffs, Ia.

## Be Good, Little Daugther-Really Good

When Zena Stewart's frivolous mother urged upon her constantly the necessity for making a good match in "our set," her devoted father took Zena on his knee and begged her always to

"Be good, little daughter—really good."

Years later, when circumstances changed Zena from a society girl into a working girl, when life was hard and temptations many—those words, echoing in her memory, carried her through—through to success and happiness and true love.

LETTERS

Mary D.—Witch hazel is an excellent astringent and also keeps the skin smooth and soft. The witch hazel you purchase is quite all right to use. The percentage of alcohol need not worry you if you use cold cream when you use this astringent. I only advise witch hazel without cold cream when a woman has a very oily skin, or in hot summer weather when the skin is apt to ex-hume an unusual amount of oil. Otherwise the face treatment is as follows:

Wash the skin clean with some mild soap, such as castile, and hot water. Rinse with hot water and massage in a small amount of cold cream. Wipe off as much as possible and then rub in a little pure witch hazel. If you wish, you may use ice which is even more astringent and which is excellent in any treatment of wrinkles.

If you notice the wrinkles so plainly on your face at your age you are either very nervous or you have an unusually dry skin. You had better use a cold cream containing either almond or olive oil.

Emmy—I have published several chats recently about spring clothes and the adaptability of the new styles to various types of figures. You are unusually small and, as you are slender, you should be able to wear the very youthful styles. A suit or a dress with an accordin pleated skirt and an Eton jacket would be becoming to you, because it would accentuate your slenderness and would not break up the lines of your figure.

As you are fallow, you had better choose dark colors and wear either cream color or very pale pink blouses instead of white.

Choose the straight-line, one-piece type of dress when possible, and simple tailored blouses. If you have evening frocks or summer dresses of very soft materials such as chiffon or voile, you can have them made as frilly as you like.

I would imagine that the most becoming way for you to do your hair would be to part it at the side and fluff it lightly over the ears making a knot high in the back. As you say in your letter, I do "detest" the exaggerated puffs which many girls are now wearing; you can get a much more becoming effect by making your hair soft and fluffy at the sides of the face, and you will avoid a very harsh and a very cheap method of hair dressing.

## MUSIC CLUB HEARS RUSSIAN MUSIC

A program of modern Russian music was rendered by the fourth division of the Xenia Woman's Music Club at the home of the Misses Steele Monday afternoon.

Miss Emma Davidson was the leader, and read the club paper. Miss Stella Bishop and Mrs. Robert Bryson were the accompanists for the afternoon.

The program opened with a piano duet by Miss Bishop and Miss Steele, "At the Convent," by Dorodin. Miss Davidson sang a number by Rachmaninoff, "O Thou Willow Harvest Field," which was followed by two piano numbers: A nocturne, by Scriabin, and Barcarolle by Rubenstein, rendered by Miss Margaret Steele.

Mrs. Steele Pogue rendered a nocturne by Balakirev, and "Deep Hidden in My Heart," by Arensky. Miss Bishop gave as a piano number Barcarolle by Moszkowski. A group of two songs was given by Mrs. Graham Bryson, "Three Birds," by Cesar Cui, and "Song of India," Korsakov. Mrs. J. P. Shumaker sang a melody and a Prelude by Rachmaninoff.

The next number was a Victor record "Song of the Sea" Moussorgsky, sung by Oscar Siegel. Mr. Siegel was the instructor under whom Mrs. Meredith and Miss Davidson studied in Paris. Miss Davidson and Mrs. Meredith sang as a duet numbers by Tschakovsky, "Pique two Dame" and "Morning Glow."

The program ended with the Prelude in C Sharp Minor by Rachmaninoff, by Misses Bishop and Steele.

The Club is making preparations for the cantata "King Rene's Daughter," which is to be given by the club chorus at the First United Presbyterian church May 18, under the direction of Mr. Earl Gebhart, of Dayton. Mr. Gebhart, who is one of Dayton's best known singers, is expected to sing a group of songs in connection with the program.

## WITH THE WOMEN OF TODAY

By Edith Moriarty

The distinction of being the first woman to head a state delegation to a national convention is enjoyed by Mrs. Manley L. Fosseen, of Minneapolis, Minn. Mrs. Fosseen was elected delegate-at-large by acclamation at the Minnesota Republican convention recently held in St. Paul.

Mrs. Fosseen is a very motherly and charming woman, the kind one never expects to see in politics, but the kind one always hopes will enter public life. She has long been active in suffrage work and is president of the Minnesota League of Women Voters. Her husband is a prominent attorney of Minneapolis and was a former member of the Minnesota state senate. According to the reports from various states which are appointing women as delegates to the Republican national convention to be held in Chicago the "feminine touch" will surely not be lacking.

**ABOUT WOMEN LAWYERS**  
Since Montana has been admitted to the union her supreme court has granted licenses to twenty women to practice law. The bar as advocates still appearing at the bar as advocates in the larger centers of the state.

The late Ella L. Knowles was the first woman to be admitted, which occurred on Dec. 26, 1889. She was a prominent figure in Montana life at the time. She entered the political field far in advance of her cohorts of femininity who are now voting. Miss Knowles campaigned actively against Henry J. Haskell of Glendive, who was elected attorney general. Recognizing her ability, he appointed her an assistant in his office and later they were married. Mrs. Haskell was widely known as a fluent speaker and a keen advocate in the court room. She practiced law in Butte for many years.

Between 1889 and 1911 there were five women admitted and in the last seven years fifteen have been admitted.

**STARTLING STATISTICS**  
Women bear the major part of the burden of Japan's sudden industrial expansion, where they form two-thirds of the 2,000,000 factory workers; of the 200,000 recruited annually from the rural districts 120,000 never return; 80,000 are broken in

health, 14,000 are consumptive; 82 per cent of workers under fifteen years of age are girls; in many factories one half of the girls go wrong in the first year of service; a large proportion of the factory products are made from America.

## GLASS OF WATER AFTER ASPIRIN

Bayer Company, Who Introduced Aspirin in 1900, Give Proper Directions.

The Bayer Company, who introduced Aspirin tell in their careful directions in each package of genuine "Bayer Tablets of Aspirin" that to get best results one or two glasses of water should be drunk after taking tablets. "Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Then you are getting the genuine, world-famous Aspirin, prescribed by physicians for over eighteen years.

Each unbroken "Bayer" package contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis and Pain generally. Handy tin boxes of twelve tablets cost but a few cents. Druggists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monaceticacidester of Salicylicacid.

## FELT LIKE KNIFE WAS BEING STUCK INTO MY BACK

Sandusky man suffered agonies from lumbago, backache, kidney trouble, and rheumatism.

Nothing helped him until he got Dreco, the great root and herb medicine.

"If some one had stuck a knife into my back, it would not have hurt any more than my back and side did from lumbago and rheumatism," said Mr. John Rider of Cottage A, Soldier's Home, Sandusky, O.

"Only those who have this trouble realize my feelings, for you have to go through it to know what the suffering is like. I was in misery all the time and when I would lie down could hardly turn over and when I'd get in a chair I'd hate to get up on account of the pains. My sleep was badly broken and I was getting weak. My stomach was in a very weakened condition from the strong medicine I took for my rheumatism. I was taking two kinds of medicine for rheumatism when I read of Dreco and put both aside for this new medicine. Dreco proved in a few days that it was real medicine for I soon saw the effects. My pains got easy, my sleep became sound, the backache passed away and I could get up and down without pain, my stomach got better and my food now agrees with me. I'm still taking Dreco for I want to give it a fair chance to get me absolutely right again and I feel it can do this."

Any remedy that restores the natural functions of the human body is a health-making remedy. The use of Dreco, the great herb medicine, tends to restore the appetite, to procure natural digestion, which is followed by an increased circulation and nutrition of the whole body. Lean, haggard, bloodless people begin to gain weight, strength and flesh at once from taking Dreco, as they themselves declare in signed testimonials.

All good druggists now sell Dreco and it is being specially introduced in this city by.

## Make Your Cooking a Real Pleasure

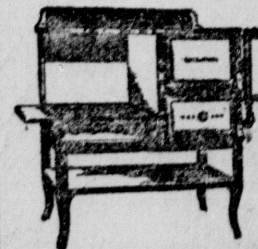

EVERY woman loves to have her cooking turn out delicious. Yet few like the tiring hours of watching that must be spent in the kitchen. And even with the most careful watching you have your "unlucky" days.

Now you can be sure every baking will be delicious. And you can have your hours off for pleasure and recreation.

**"Quick Meal" Gas Range** with "LORAIN" Oven Heat Regulator enables you to cook a whole meal in the oven at one time without watching. You let "LORAIN" cook it from three to six hours as suits your convenience. You enjoy an afternoon of leisure, and return to find a perfect meal, deliciously cooked, ready for serving.

## "LORAIN"

Women have hailed with delight this great cooking advancement. For it has shown them a better and easier way to cook. Come in and see a demonstration. We have a booklet, "An Easier Day's Work," every woman should read. We have a copy here for you.

at a fair price. Well, ever since Maggie made me buy that swell auto, the boys over to Dugan's place think they have to get some 'thin' to ride in too, and I'm goin' to show 'em this ad."

"Yes, and I see here he sells that CHEVROLET car too. Grogan took me out riding the other day in HIS CHEVROLET, and it's a wonder. Sure gets up and digs when you come to a hill, and speed? Say boy, we was goin' so fast when I lost my hat goin' through Alpha that we went on through Trebeins before we could get stopped.

## Jiggs finds out something new at the Xenia Vulcanizing Co.

"Say Maggie, I've just found out something. You remember that fellow up at 102 East Main street that we was talking to about vulcanizin' our tires? Well he's got a new stunt now of puttin' a brand new tread on a tire, just like the factories do. He can put a new tread on an old tire just like new, and at just half the price of a new tire that size, an' get another three or four thousand miles out of it."

"Say Jiggs, we won't have to economize on gasoline now to buy new tires, and we can sure keep the old Henry Ford going all the time at that rate."

"An' another thing Maggie, he'll tell us whether our tires are too worn out to retread too."

## MISSING GIRL IS FOUND IN PRISON ON THEFT CHARGE

New York, April 28.—Police today revealed the strange case of Miss Dorothy L. Smith, a pretty teacher, who was found in Jefferson market prison after her friends had reported her missing two days. The girl who came here last September from Elgin, Ill., had been arrested Monday on a shop lifting charge but failed to inform her friends of her plight.

When arraigned on the charge Miss Smith appeared unable to explain her act and it is believed she suffered from an attack of aphasia. She had plenty of money with her at the time. She pleaded guilty to the charge and was remanded for sentence. Her friends will attempt to affect her release.

She is said to be a daughter of Theodore L. Smith, an official of the Elgin Watch Co. The girl is a graduate of the Chicago school of physical education and holds a teaching position at the Y. W. C. A. in Railway, N. J.

## GENERAL CONFERENCE OF M. E. CHURCH CONVENES IN IOWA

The twenty-eighth delegated session of the General Conference of the Methodist Episcopal church will convene in session at Des Moines, Iowa, Saturday, May 1st. From quadrennium to quadrennium this body has been increasing in size, owing to the growth of the Methodist church, until it will be composed of about 850 members from the 134 Annual Conference of the church in America and its various foreign fields. It is the only law making body of the church, and its representatives are therefore selected with great care, half of the body being ministers and the other half laymen, the law determining the number of representatives as follows: One minister for every forty-five ministers, or two-thirds thereof in each conference, and a like number of laymen from the same conference. The West Ohio Conference, embracing this territory, and the western third of the state from the lakes to the Ohio river, having some 475 ministers in its body, is therefore entitled to ten clergy representatives, and these were chosen last September, at the last annual session of the conference, the laymen being chosen by the Lay Electoral Conference which met at the same time and place, though separately.

Dr. Brown accompanied by Mrs. Brown, will leave Thursday morning to attend the conference, arriving Friday in time for the opening session. Many far-reaching questions, affecting the church and country will be considered during the month's deliberation.

Representative Upshaw in his overall suit.

Representative William D. Upshaw of Georgia, the only evangelist in congress, is the organizer and pioneer of the congressional overalls club. Clad in overalls he recently made a speech in the house in which he said: "The high cost of clothing was too much for me, but I solved the problem by buying a suit of overalls for \$4.98."

Wheeler, Ga. will be taken to Philadelphia to be placed in Hospital No. 39, maintained at Park View, Penn., by the Public Health Service.

D. H. Fitz of The Shawnee Refrigeration Company will take charge of the young man on the trip, and they will leave Xenia Wednesday night.

Webb spent a year and a half in the service, and was shell shocked overseas. He was a member of Company C, Eighth Regiment, Field Artillery. Through the efforts of Mrs. Lulu C. Quisenberry, Red Cross home service secretary in Greene County, he secured his back pay and bonus, and a copy of his discharge, which he had lost. Mrs. Quisenberry also obtained a position for him, and was

## HOW TO RAISE BABY CHICKS

Put Avicol in the drinking water.

Most people lose half of every hatch, and seem to expect it. Chick cholera or white diarrhoea is the trouble. The U. S. Government states that over half the chicks hatched die from this cause.

An Avicol tablet, placed in the drinking water, will positively save your little chicks from all such diseases. Inside of 48 hours the sick ones will be as lively as crickets. Avicol keeps them healthy and makes them grow and develop.

Mrs. Vannie Thacker, R. F. D. 3, St. Paris, O., writes: "I had 90 chicks and they all died but 32. Then I commenced on Avicol and haven't lost any since. They have grown wonderfully."

It costs nothing to try Avicol. If you don't find that it prevents and promptly cures white diarrhoea, chick cholera and all bowel diseases of poultry, tell us and your money will be refunded by return mail. Avicol is sold by most druggists and poultry remedy dealers, or you can send 25c or 50c today for a package by mail postpaid. Burrell-Dugger Co., 624 Columbia Bldg., Indianapolis, Ind.

apparently getting along nicely when an abnormal mental condition arose, due to shell shock. He became highly nervous and melancholy, and recently has made threats to take his life. He twice wandered away from a local hospital, where he had been placed for treatment, and the last time was gone two days without food. He wandered into the police station yesterday morning, and was returned to the hospital. The necessity for his immediate removal to a government hospital became imperative, and Mrs. Quisenberry obtained the consent of Mr. Fitz to conduct him to the hospital.

## INTER-ALLIED BODY RECESSES FOR MONTH

London, April 27.—The meeting of the inter-allied supreme council officially came to an end at San Remo today with the departure of the central figures for their homes. The adjournment of the conference is more in the nature of a month's recess, as it is generally expected that the conference will be resumed late in May with the German representatives at Spa.

The last minute decision to assign Italy a large sphere of economic influence in Anatolia is looked upon as a measure to placate Italy. The territory assigned is rich in natural resources and has much coal, of which Italy is sadly in need.

The conference in its final session devoted considerable discussion to the proposed trials of German criminals, but apparently no decision was reached.

Publication of the note to President Wilson asking America to assume a mandate over Armenia will be withheld until it has been received in Washington. Final approval of the text of the note was given at the council's final session. The final clauses of the Turkish treaty also were approved.

A Central News dispatch from San Remo today said that Premier Lloyd George had informed Italian newspapermen that when the Germans are met at Spa next month they will be treated as equals and not as beaten foes.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for cod liver oil, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

Fort Dodge, Ia.—"From the time my daughter was 13 years old until she was 16 she suffered so

badly each month, that sometimes I had to call in the doctor. She had headaches, backache, and such pains and cramps that she would have to stay in bed two or three days. She became terribly run down in health and at last a friend who had used Lydia E. Pinkham's Vegetable Compound told her about it and she has used sixteen bottles and we always have it in the house. She feels fine now and she has no trouble at all each month. We always praise it and advise any friends who suffer to use your wonderful medicine."—Mrs. MINNIE MANDELKO, 1005 S. 18th St., & 10th Avenue, Fort Dodge, Iowa.

Girls who are troubled as Miss Mandelko was, should immediately seek restoration to health by taking Lydia E. Pinkham's Vegetable Compound. Those who need special advice may write to Lydia E. ## The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

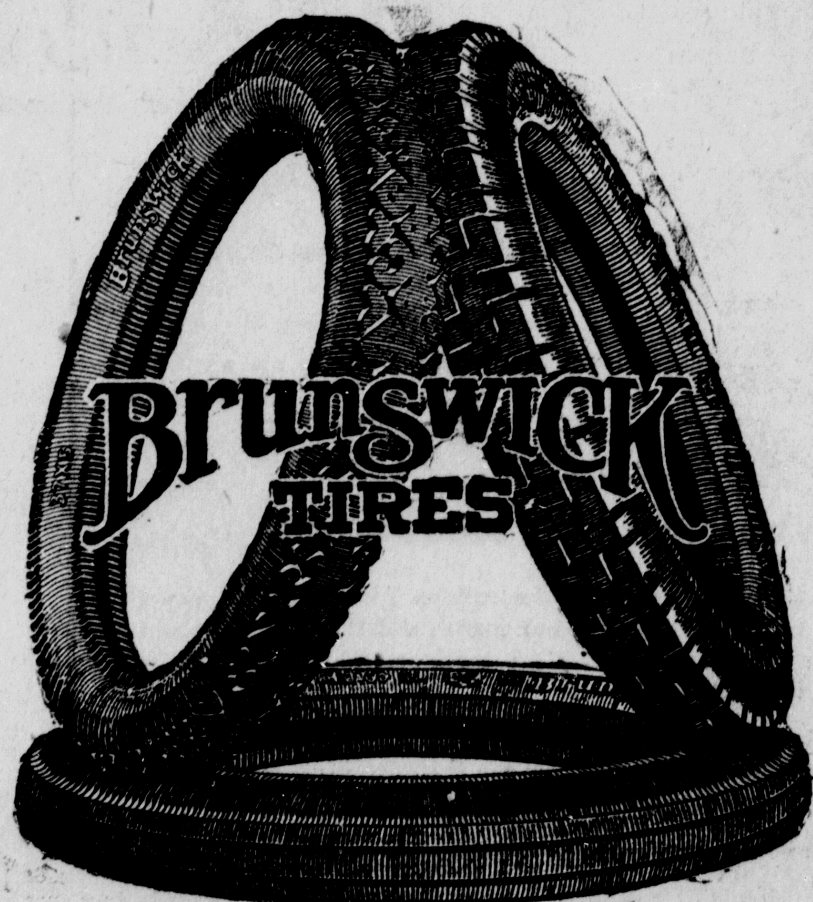

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.

# SCENES DURING HIGH WATER IN GREENE COUNTY LAST WEEK

These views of the flood of last week are striking illustrations of the amount of water carried by the streets of Greene County and which flooded the Ormsby and Dodds additions, filling cellars in residences along King street.

In the upper left hand corner is a view of the swollen Little Miami river at Trebeins showing the water flowed over its banks from the tracks of the Pennsylvania railroad to the Flynn dairy barn.

In the upper right corner a view of the back water in the Dodds addition is shown. This is the scene of the proposed lagoon planned by Frank W. Dodds owner of the tract, for the park he will give the city, and in a way given an idea of how the territory is adapted for that purpose.

In the lower left hand corner is a picture of the water in the Ormsby addition, showing the George Baldwin garage, which was submerged half way, and from which a machine new-

ly painted, was rescued. The flat boat in the foreground was used by the city street cleaning department in an attempt to open up the conduit.

The view in the lower right hand corner is taken from Detroit street looking toward King across the expanse of water which inundated the low lands at that point. It shows the rear of King street houses around which the water flowed and the cellars of which were filled.

## FINAL PLANS FOR BUILDING OF SCHOOLS NOW UP

With school bond issue a settled fact the great problem before the Board of Education now is the settling upon final plans, the awarding of contracts, the issuance of bonds and the erection of the two new buildings as soon as possible.

Tentative plans for both high schools, are prepared by Architect Pretzinger and Musselman of Dayton, will be given careful consideration, and detailed plans for both buildings will be drawn by that firm. These plans will be given careful consideration by the board, and estimates received before any bonds are issued to determine finally that the buildings can be erected within the amount voted for. In case the amount will not cover the cost, not a one of the bonds will be issued.

With the final agreement on the plans and the awarding of the contracts, work will probably not start until in the late summer, owing to the great amount of preliminary work. The bonds themselves will be issued only as they are needed to settle the current expenses of the construction work.

These are the opinions of J. W. Santmyer, president of the Board of Education, which were expressed in an interview Wednesday. "The building will be erected and furnished within the amount of the bond issue, or no bonds will be issued," said Mr. Santmyer, "they will be held until they will cover the cost."

"As to what will be done with the school children next year to house them during the construction of the new buildings, that is a question that must be determined by the board before the next school year. I myself, do not know yet where the children will be taken care of."

"I do know that we have been ordered by the state department of inspection of public buildings, not to use the third floor of Central High School or all of East Main Street school buildings, after the present

school year. They were condemned by the state board with out solicitation and we have been warned against the use of it several times.

"There is no member of the Board of Education wants to take the responsibility of using either of the buildings condemned. They have been used because it was felt that the danger was not immediate but constant use makes the danger more imperative. The fire escapes have not been used for the same reason. They are light, rusty, and weak and while they could be used in case of fire without danger, it was felt that the constant strain from fire drills would weaken them so that in case of a real fire they would prove unfit."

"I personally regret the act that any personal animosities entered the campaign," said Mr. Santmyer. "There is no member of the board of made that were misleading. It is true that the taxes will be increased by the bond issue, but I do not believe that it will be as much punishment as many were led to believe. The board will do everything in its power in issuing the bonds to protect the taxpayers."

According to Mr. Santmyer, the housing of the children next year is the most important question now before the board. The order received prohibiting use of the buildings after the present year will have to be obeyed and this will mean that other quarters will have to be secured for the children next year. This question will have to be decided by the board before the start of the next school year. The first two floors of the Central building were not condemned, and can be used for the grade children.

## Heart and Home Problems

Dear Mrs. Thompson: My brother died last winter and left a wife with two boys, aged five and eight. She has always been a selfish woman, thinking more about her own interests than of my brother or the children. She has never worked because she was married at the age of eighteen.

Since her trouble my husband has contributed fifteen dollars a month toward her support. Of course this amount would not go far, but it is absolutely all he can afford. My sister-in-law has asked that we take the two boys instead of sending money. For the sake of the children I would do this, but my husband objects strongly. We have been married two years and he says we must have a family of our own and we cannot do justice to both.

My sister-in-law is making her home with my mother. Mother cannot help in a financial way, but she has offered to take care of the children if sister-in-law will get a position.

Do you think I should do the work at hand and take the children, or should I follow my husband's advice and refuse to take the children?

MRS. K. H.  
Since your mother has offered to take care of the children, I see no reason why you should do so. Your sister-in-law must bear her own burden as far as possible. To get a position and help toward the support of her little family seems to be the least she can do. By all means follow your husband's advice. Not all men would feel that they could contribute even fifteen dollars to a wife's sister-in-law in these hard times.

Dear Mrs. Thompson: I am a woman of thirty and have two nice children and a happy home, but there is a man who annoys me all the time, trying to get me to leave my husband and go with him. My husband welcomes him at the house as a friend.

I have told him that if he did not stop annoying me I would tell my husband about it. I do not like to make trouble because his eldest daughter is a beautiful character and it would hurt her terribly. But don't you think I should tell my

husband and let him take of the man?

Yes, you should tell your husband. The matter can be settled privately so that the man's daughter need not be hurt. It is wrong for you to permit such a character to come to your home.

Dear Mrs. Thompson: I am a married woman thirty-two years old. My husband is very cruel, almost inhuman to me. We were married twelve years ago and he has been drunk almost every day, Sundays included.

As soon as he enters the house he starts to find fault with me, accusing me of things I never would dream of. I have stood that for twelve long years and I am at the end of my wits and strength. He used to beat me until my body was sore all over and marked with blue, yellow and green sore spots.

I have no children. I keep my house spotless, raise chickens and a beautiful garden. I am in poor health, but he expects me to paint the rooms and wants me to go to work, which is perfectly absurd, as we are well off.

One of my sisters was driven insane by her husband, and my husband says he will do the same. He says he will never rest until I can join my sister in the asylum. I cannot go on this way any more, but still I don't believe in divorce. What can I do?

A BROKEN HEARTED WOMAN.  
You can leave your husband without getting a divorce. He may come to his senses later and realize how much you have meant to him. If you accepted a position as housekeeper you would not have to work any harder than you do now, and you would have peace.

Since intoxicating drinks have been taken away, your husband will not be able to drink indefinitely. His source of supply will come to an end. When he no longer drinks he will be kinder. Leave him now in hopes that he will change while you are away and that he will want you to come back to him. Before taking any step it would be wise to consult a lawyer. It would be unwise to give him grounds to divorce you. After enduring so much you are at least entitled to the money he will leave.

## WILL NOT RELEASE IRISH PRISONERS

London, April 28.—A Bonar Law government spokesman in the house of commons, announced to the house today that the government will not release the Irish prisoners held at Wormwood Scrubs prison. He said the government did not fear the general strike of dock workers, which is threatened by Irish sympathizers unless the government adopts lenient policy with regard to the Wormwood prisoners.

## WILSON APPOINTS NEW COUNSELLOR

Washington, April 28.—President Wilson today nominated Peter Augustus Jay, of Rhode Island, now counsellor of the embassy at Rome, to be

minister to Salvador, and Robert W. Heimgartner, Canton, Ohio, to be consul class six.

The nomination of former Senator Theodore E. Burton, to be a member of the United States tariff commission was withdrawn at Burton's request.

## REMOVAL FROM XENIA DECIDED BY SEMINARY

Removal of Xenia Theological Seminary to St. Louis, was favored by the Board of Managers of the seminary, in a vote which was taken at a special meeting of the board which was held here Wednesday.

By this action, the board ratified the action of the re-location committee. The board had an option for twenty days on the St. Louis property which is desired as a site for the seminary in its new home and it was necessary to hold the meeting this week

in order to take the necessary legal steps before the contract could be made for the purchase of the property.

The meeting was held Wednesday morning at the home of Dr. Joseph Kyle, president of the seminary, and chairman of the re-location committee. Dr. Kyle is recuperating from his recent illness and is not able to be out, and for that reason the meeting was held at his home.

The Second Synod of the West, which body must ratify the action of the board of managers regarding the relocation, convened at the seminary Wednesday afternoon. Following the meeting of Synod the Board of Managers will re-convene to complete its yearly work. Because of the necessity of meeting in connection with the re-location plan, the board of managers, which meets annually at commencement time, advanced the meeting one week this year.

## DILUTED MILK IS QUICKLY DETECTED BY NEWEST DEVICE

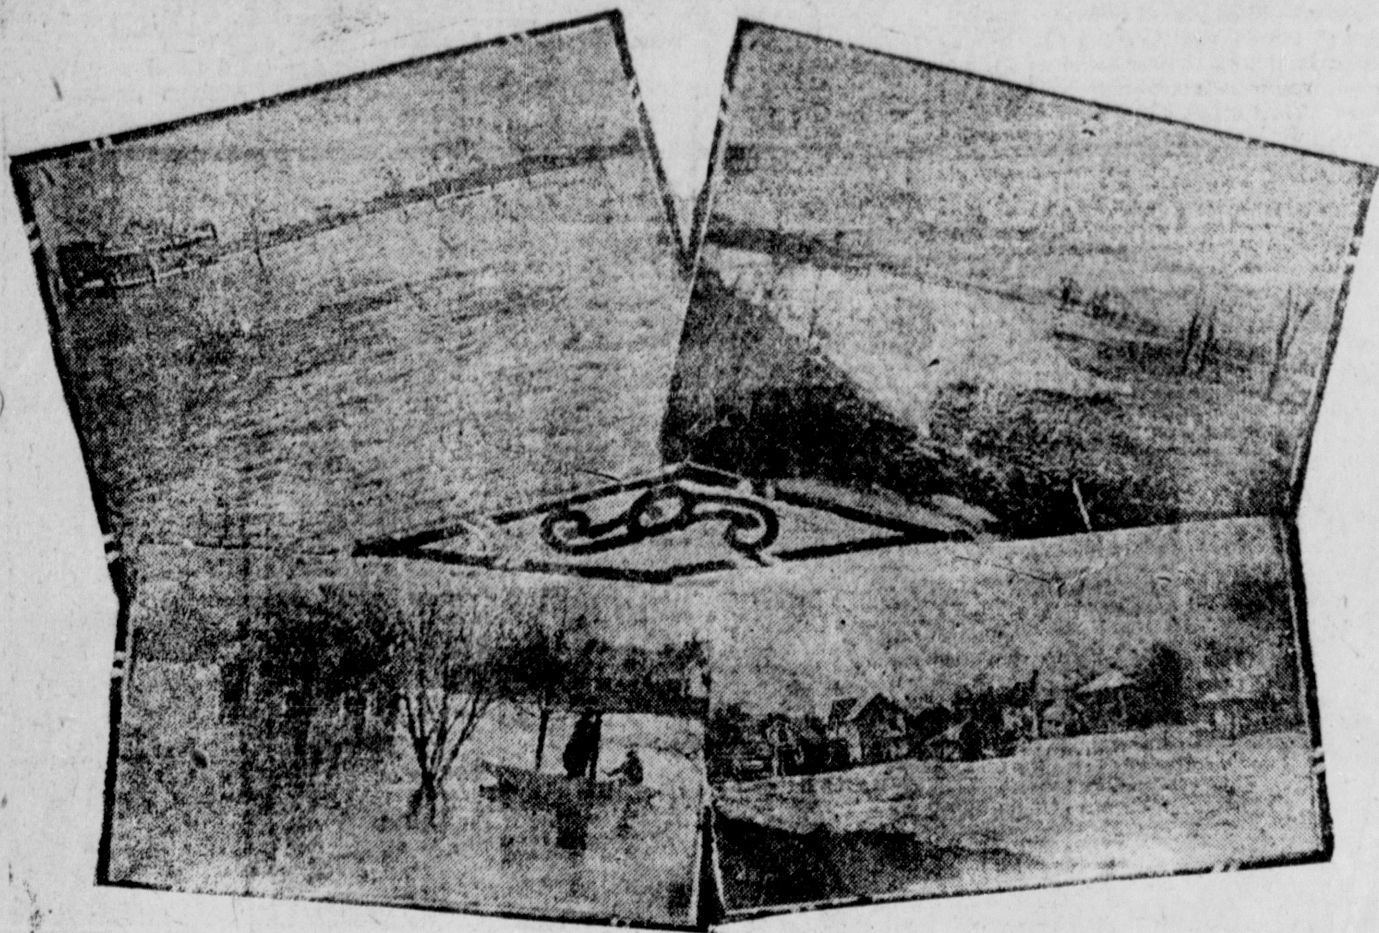

Dr. Julius Hovert at his testing machine.

Dr. Julius Hovert, Minnesota state chemist, has perfected a device known as the cryoscope by which, within eight minutes, one can tell just what amount of water has been added to milk. The invention is based on the principle of the freezing point test. No suitable method of testing accurately and quickly had been invented previous to this one.

## SCENES DURING HIGH WATER IN GREENE COUNTY LAST WEEK

These views of the flood of last week are striking illustrations of the amount of water carried by the streets of Greene County and which flooded the Ormsby and Dodds additions, filling cellars in residences along King street.

In the upper left hand corner is a view of the swollen Little Miami river at Treboins showing the water flowed over its banks from the tracks of the Pennsylvania railroad to the Flynn dairy barn.

In the upper right corner a view of the back water in the Dodds addition is shown. This is the scene of the proposed lagoon planned by Frank W. Dodds owner of the tract, for the park he will give the city, and in a way given an idea of how the territory is adapted for that purpose.

In the lower left hand corner is a picture of the water in the Ormsby addition, showing the George Baldwin garage, which was submerged half way, and from which a machine new-

ly painted, was rescued. The flat boat in the foreground was used by the city street cleaning department in an attempt to open up the conduit.

The view in the lower right hand corner is taken from Detroit street looking toward King across the expanse of water which inundated the low lands at that point. It shows the rear of King street houses around which the water flowed and the cellars of which were filled.

## FINAL PLANS FOR BUILDING OF SCHOOLS NOW UP

With school bond issue a settled fact the great problem before the Board of Education now is the settling upon final plans, the awarding of contracts, the issuance of bonds and the erection of the two new buildings as soon as possible.

Tentative plans for both high schools, are prepared by Architect Pretzinger and Musselman of Dayton, will be given careful consideration, and detailed plans for both buildings will be drawn by that firm. These plans will be given careful consideration by the board, and estimates received before any bonds are issued to determine finally that the buildings can be erected within the amount voted for. In case the amount will not cover the cost, not a one of the bonds will be issued.

With the final agreement on the plans and the awarding of the contracts, work will probably not start until in the late summer, owing to the great amount of preliminary work. The bonds themselves will be issued only as they are needed to settle the current expenses of the construction work.

These are the opinions of J. W. Santmyer, president of the Board of Education, which were expressed in an interview Wednesday. "The building will be erected and furnished within the amount of the bond issue, or no bonds will be issued," said Mr. Santmyer, "they will be held until they will cover the cost."

"As to what will be done with the school children next year to house them during the construction of the new buildings, that is a question that must be determined by the board before the next school year. I myself, do not know yet where the children will be taken care of."

"I do know that we have been ordered by the state department of inspection of public buildings, not to use the third floor of Central High School or all of East Main Street school buildings, after the present

school year. They were condemned by the state board with out solicitation and we have been warned against the use of it several times.

"There is no member of the Board of Education wants to take the responsibility of using either of the buildings condemned. They have been used because it was felt that the danger was not immediate but constant use makes the danger more imperative. The fire escapes have not been used for the same reason. They are light, rusty, and weak and while they could be used in case of fire without danger, it was felt that the constant strain from fire drills would weaken them so that in case of a real fire they would prove unfit."

"I personally regret the act that any personal animosities entered the campaign," said Mr. Santmyer. "There is no member of the board of made that were misleading. It is true that the taxes will be increased by the bond issue, but I do not believe that it will be as much punishment as many were led to believe. The board will do everything in its power in issuing the bonds to protect the taxpayers."

According to Mr. Santmyer, the housing of the children next year is the most important question now before the board. The order received prohibiting use of the buildings after the present year will have to be obeyed and this will mean that other quarters will have to be secured for the children next year. This question will have to be decided by the board before the start of the next school year. The first two floors of the Central building were not condemned, and can be used for the grade children.

# SMALLPOX ENDS BRIEF STAY IN CITY OF XENIA

Smallpox has been wiped out in Xenia, according to Dr. R. H. Grube, city health officer.

The epidemic was confined to twelve cases, most of them pupils in the second grade of Central school.

Dr. Grube took prompt measures to check the epidemic and a strict quarantine was established over every case. Had this not been done, Dr. Grube believes that the epidemic would have spread like wildfire over the city, and caused a condition similar to that which existed here two years ago.

The health officer says that he believes the infection started from one source in the second grade of Central school, to which grade most of the victims were confined.

The epidemic cost the city only \$27, while two years ago about \$2,000 was expended by the city in the support of quarantined families. The law provides that persons under quarantine for a contagious disease are entitled to receive support from the municipality or township if such support is requested. Only one family demanded assistance during the recent mild epidemic.

# Is It Yours

On April 27, 1820, one of the most brilliant figures of the last century was born, Herbert Spencer, founder of synthetic philosophy and the son of a poor school master, was born at Derby, England. Gossip says that he might have become the husband of George Elliott had he really wished to; that he didn't wish to seems to be because of that lady's lack of beauty, for he said she "was the most admirable woman mentally I have ever met."

The great strength of character of Spencer as a boy came out when he rebelled against living with an uncle and walked 48, 47 and 20 miles in three successive days, with neither food nor sleep, in order to reach home. When he was 17, he had a position on the London-Birmingham Railroad, and speaks of his discharge in the words "Got the sack—very glad."

Shortly after this, he went into newspaper work and then he began to write. "Social Statics," "Principles of Psychology," "Principles of Biology," "Principles of Sociology" and "Data of Ethics" are among his books. American admirers sent him a present of \$7,000 and that with two small legacies gave him enough money to live on while he wrote. Spencer defined a tragedy as "The Spectacle of Deduction Killed by a Fact."

Mrs. M. E. Proctor Says Her Complete Recovery After So Many Years of Suffering Seems Too Good To Be True—Was Invalid for Years.

"I am so grateful for what Tanlac has done for me that I want to tell the whole world about it," said Mrs. M. E. Proctor, of 717 West First St., Los Angeles, Calif., when speaking of the splendid results she had obtained from the medicine. "To think that I should have suffered for so many years, and spent hundreds of dollars in vain efforts to get relief and then find complete relief after taking only four bottles of Tanlac seems too good to be true."

"Yes, indeed; for years and years I suffered terribly from stomach trouble. Everything I ate seemed to form gas and so affected my heart and breathing that I would have palpitation and would turn purple in the face in my efforts to get my breath. These attacks caused me intense suffering and were so bad that I was frequently confined to my bed and would have to be attended by some member of the family for fear I should succumb, during one of the attacks."

"I got awfully thin and was so weak that I had to give up all household duties. I often went for two weeks at a time without getting a good night's sleep and as a consequence became very nervous and low-spirited. In fact, I was a confirmed invalid and my friends did not expect me to live very long."

# Think what Labor owes to Him!

UNTIL His thirtieth year the Master was the Carpenter of Nazareth.

Could He possibly forget those carpenter years when the years of His ministry began? Could the men who labor with their hands ever be far from His thought and prayers?

To such men, oppressed and driven, men bent by toil, with hopeless hearts, He spoke a phrase that flamed with power.

"You are sons of God," He told them.

Sons of God—brothers of their rulers and employers; with an equal right to happiness, to comfort and opportunity. All the hopes of Labor in all the centuries had their beginning in that splendid thought.

The Churches cooperating under the name of the Interchurch World Movement offer the program of the Master; and His Golden Rule.

"Whatsoever ye would that men should do to you, do ye even so to them."

By that rule the industry of the future must be directed. Its products must be not merely goods, but good; not merely wealth but happiness and character and joy.

If you believe these things, you believe in one of the fundamental purposes of the Churches and of their agent, the Interchurch World Movement.

And you have this month your chance to help. Whether you labor with hand or brain, whether you are inside the Church or out, you are a sharer in the benefits of the influence of Jesus Christ.

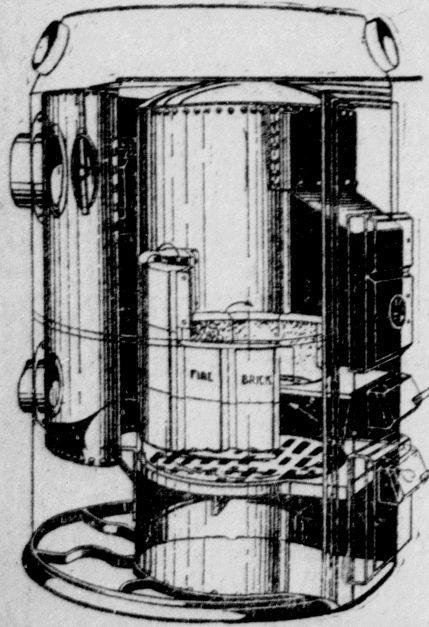

Help to make that influence the ruling spirit of the modern world. Help to make industry a spiritual enterprise, where men shall work together not in envy but in mutual respect—as brothers all, and "sons of God."

# SMALLPOX ENDS BRIEF STAY IN CITY OF XENIA

Smallpox has been wiped out in Xenia, according to Dr. R. H. Grube, city health officer.

The epidemic was confined to twelve cases, most of them pupils in the second grade of Central school.

Dr. Grube took prompt measures to check the epidemic and a strict quarantine was established over every case. Had this not been done, Dr. Grube believes that the epidemic would have spread like wildfire over the city, and caused a condition similar to that which existed here two years ago.

The health officer says that he believes the infection started from one source in the second grade of Central school, to which grade most of the victims were confined.

The epidemic cost the city only \$27, while two years ago about \$2,000 was expended by the city in the support of quarantined families. The law provides that persons under quarantine for a contagious disease are entitled to receive support from the municipality or township if such support is requested. Only one family demanded assistance during the recent mild epidemic.

# CONFESSED SLAYER OF TELEPHONE GIRL IS SPIRITED AWAY

Pontiac, Mich., April 28—Authorities announced this morning that Anson Best, 24 year old youth of Flint had confessed that he killed Miss Vera Schneider, 19, telephone operator who was found choked to death on the porch of a vacant house in this city.

# OFF-THE-FACE HAT STILL A FAVORITE

The off-the-face hat is still leading in the millinery circles. It will probably continue in favor until it is time to get a hat with a brim to protect the face from the sun. Here are two very attractive models. The one above is a tan straw with padded silk fruits and flowers for trimming. Below is an exclusive model of tan hemp with feather pads and aigretted ostrich to match.

at-midnight Saturday. The young man, according to the authorities, declared that he had strangled the girl with two handkerchiefs knotted together at her request.

Prosecutor H. C. Gillespie secured the confession during the night. Immediately after the announcement of the confession, county authorities spirited Best out of Pontiac to forestall any attempts at lynching.

# Is It Yours

On April 27, 1820, one of the most brilliant figures of the last century was born, Herbert Spencer, founder of synthetic philosophy and the son of a poor school master, was born at Derby, England. Gossip says that he might have become the husband of George Eliott had he really wished to; that he didn't wish to seems to be because of that lady's lack of beauty, for he said she "was the most admirable woman mentally I have ever met."

The great strength of character of Spencer as a boy came out when he rebelled against living with an uncle and walked 48, 47 and 20 miles in three successive days, with neither food nor sleep, in order to reach home. When he was 17, he had a position on the London-Birmingham Railroad, and speaks of his discharge in the words "Got the sack—very glad."

Shortly after this, he went into newspaper work and then he began to write. "Social Statics," "Principles of Psychology," "Principles of Biology," "Principles of Sociology" and "Data of Ethics" are among his books. American admirers sent him a present of \$7,000 and that with two small legacies gave him enough money to live on while he wrote. Spencer defined a tragedy as "The Spectacle of Deduction Killed by a Fact."

# Los Angeles Woman Grateful To Tanlac

Mrs. M. E. Proctor Says Her Complete Recovery After So Many Years of Suffering Seems Too Good To Be True—Was Invalid for Years.

"I am so grateful for what Tanlac has done for me that I want to tell the whole world about it," said Mrs. M. E. Proctor, of 717 West First St. Los Angeles, Calif., when speaking of the splendid results she had obtained from the medicine. "To think that I should have suffered for so many years, and spent hundreds of dollars in vain efforts to get relief and then find complete relief after taking only four bottles of Tanlac seems too good to be true."

"Yes, indeed; for years and years I suffered terribly from stomach trouble. Everything I ate seemed to form gas and so affected my heart and breathing that I would have palpitation and would turn purple in the face in my efforts to get my breath. These attacks caused me intense suffering and were so bad that I was frequently confined to my bed and would have to be attended by some member of the family for fear I should succumb, during one of the attacks."

"I got awfully thin and was so weak that I had to give up all household duties. I often went for two weeks at a time without getting a good night's sleep and as a consequence became very nervous and low-spirited. In fact, I was a confirmed invalid and my friends did not expect me to live very long."

"I sat reading the paper one evening when my eye caught the statement of a lady who had suffered with similar trouble to my own and telling how she had been wonderfully helped

TEN CIVILIANS KILLED.

Vienna, April 28.—Ten civilians were killed and 21 wounded in a conflict between strikers and gendarmes at Laibach, the capital of Carniola, in Jugoslavia, according to the Jugoslav Press Bureau. The strikers attempted to hold a prohibited meeting and the police surrounded and attempted to disarm them. Communist Leader Coloud called a general strike, which took effect immediately.

# PROFITEERING CHARGED.

Syracuse, N. Y., April 28.—Weed's Inc. Binghamton clothiers, was indicted on charges of profiteering. One or eight counts was based on testimony of T. B. Cray, millionaire, that he paid \$60 for a suit costing \$32.50.

# Think what Labor owes to Him!

UNTIL His thirtieth year the Master was the Carpenter of Nazareth.

Could He possibly forget those carpenter years when the years of His ministry began? Could the men who labor with their hands ever be far from His thought and prayers?

To such men, oppressed and driven, men bent by toil, with hopeless hearts, He spoke a phrase that flamed with power.

"You are sons of God," He told them.

Sons of God—brothers of their rulers and employers; with an equal right to happiness, to comfort and opportunity. All the hopes of Labor in all the centuries had their beginning in that splendid thought.

The Churches cooperating under the name of the Interchurch World Movement offer the program of the Master; and His Golden Rule.

"Whatsoever ye would that men should do to you, do ye even so to them."

By that rule the industry of the future must be directed. Its products must be not merely goods, but good; not merely wealth but happiness and character and joy.

If you believe these things, you believe in one of the fundamental purposes of the Churches and of their agent, the Interchurch World Movement.

And you have this month your chance to help. Whether you labor with hand or brain, whether you are inside the Church or out, you are a sharer in the benefits of the influence of Jesus Christ.

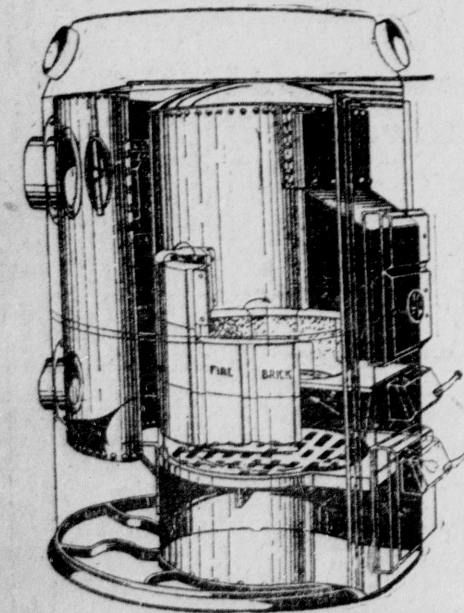

Help to make that influence the ruling spirit of the modern world. Help to make industry a spiritual enterprise, where men shall work together not in envy but in mutual respect—as brothers all, and "sons of God."

# Your Home Needs a PEERLESS

Can Not Leak, Smoke or Gas

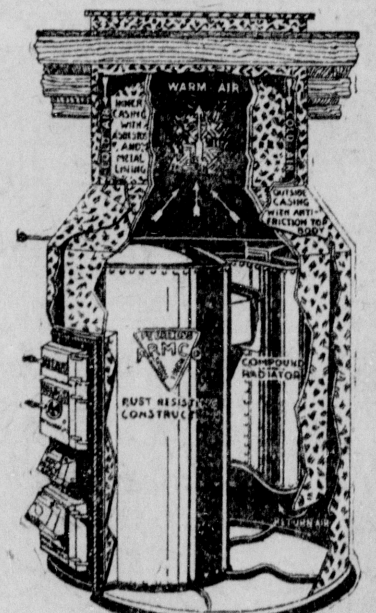

DO YOU KNOW WHAT IS DONE IN EVERY FOUNDRY EVERY DAY THEY ARE IN OPERATION?

Most of the day is spent in preparing molds of various sizes and shapes for the different castings they are going to make. While the molders are preparing the molds other men are charging the blast furnace with coke and pig iron. By the time the molds are all prepared the iron is usually ready to pour, it is then carried in heavy ladles and poured into the molds when it hardens into the desired castings. That is the way castiron furnaces are made, but the blast furnace, where the iron is melted is not made of cast-iron. It is made of boiler iron riveted together and is lined with fire brick. Why not use cast iron in making a blast furnace because it cannot be made tight enough to hold molten metal, and if it could be it would crack and let the metal out, endangering the lives of the workmen.

That is why we make The Peerless Furnace of heavy Armco Iron Boiler Plates riveted together and line our fire-bowls with fire-brick. This iron is fully tested and guaranteed by the American Rolling Mill Co., and a large amount of it is used in the construction of locomotive fire-boxes.

This construction makes it possible for us to guarantee our fire pot for 10 years.

The Peerless Armco Iron Furnace is without doubt the most substantially constructed and economical furnace on market today.

Arbolone Tablets is the Treatment To Be Used. Proven Safe and Sure

Hundreds of thousands of tubes of Arbolone Tablets have been marketed in the past five years and not a single case has ever been reported of their being deleterious in any way.

On the contrary, many are grateful and write letters similar to this one, which was received from Mrs. Lilla Richards, Pittsfield, Maine:

"Dear Sir: Two years ago I tried Arbolone Tablets. It not only reduced me, but cured my headache and heart palpitation, and removed that bloated feeling. Recently my weight again increased. I began Arbolone again and one box reduced me from 199 pounds to 182 pounds, and I feel so much better. I shall continue until my weight is again normal, etc."

## RUSSELL GREINER TO SPEAK BEFORE CHAMBER COMMERCE

Russell Greiner, former Xenian, and ex-president of the International Rotary Club, arrived in Xenia Tuesday and is the guest of his sister, Mrs. William M. Wilson.

Mr. Greiner is on his way to Harrogate, England, where he will attend a meeting of British Rotarians and from there he will go on to Paris to deliver the charter to the newly organized Rotary Club of Paris. At the invitation of the Chamber of Commerce he will address members of that organization at the April banquet which will be held tonight at 6:30 o'clock.

Mr. Greiner will take for his subject, "The Chamber of Commerce and the Rotary Club." Already almost a hundred reservations have been made at the Chamber of Commerce for the affair and it is expected that this will be the most popular evening affair held by the organization for some time.

Mrs. Ephie Bertha Tobias, wife of O. D. Tobias, died at the Miami Valley hospital, Dayton, at 11:20 Tuesday morning, following an operation for mastoid trouble.

Mrs. Tobias is survived by her husband, a son Raymond, and two daughters. The body will be removed to her home three miles north of Alpha on the Valley road. Funeral services will be held at the home at 2 o'clock Friday, and at 2 o'clock at Beaver Reformed church. Burial will be made in Beaver cemetery.

## 3-Grain Tablet Makes Flesh.

Any one wishing to add to their weight, improve their color, and restore a normal condition of the stomach and nerves, should adopt the wonderfully successful treatment known to physicians and druggists as "3-grain hypo-nucleic tablets," put up in sealed packages with full directions for home use. Red lips, pink cheeks, and 10 to 30 pounds increase in weight are no common results from several months' usage. Ask your well-stocked druggist for them.

## ZEMO HEALS FIERY, ITCHING ECZEMA

A CLEAN, ANTISEPTIC LIQUID  
The first application of this clean, antiseptic lotion stops itching, and when applied regularly, in a short time usually all traces of eczema or other disfiguring skin troubles disappear, leaving the skin clean and healthy.

This can be proved by your getting from any druggist a 35c trial size, or \$1.00 regular size bottle of ZEMO, a safe, efficient and economical treatment for eczema and other skin troubles.

ZEMO ANTISEPTIC SOAP greedily aids ZEMO in the treatment of skin troubles.

## For Colds, Catarrh or Influenza

Do you feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!

An old, reliable blood-maker and herbal tonic made from wild roots and herbs, is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body and protect you from disease germs which lurk everywhere. One of the active ingredients of this temperance alterative and tonic is wild cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root, all skillfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimilation. These herbal extracts in the "Discovery" aid in blood-making and are best for scrofula. By improving the blood they fortify the body against an attack of grip or colds.

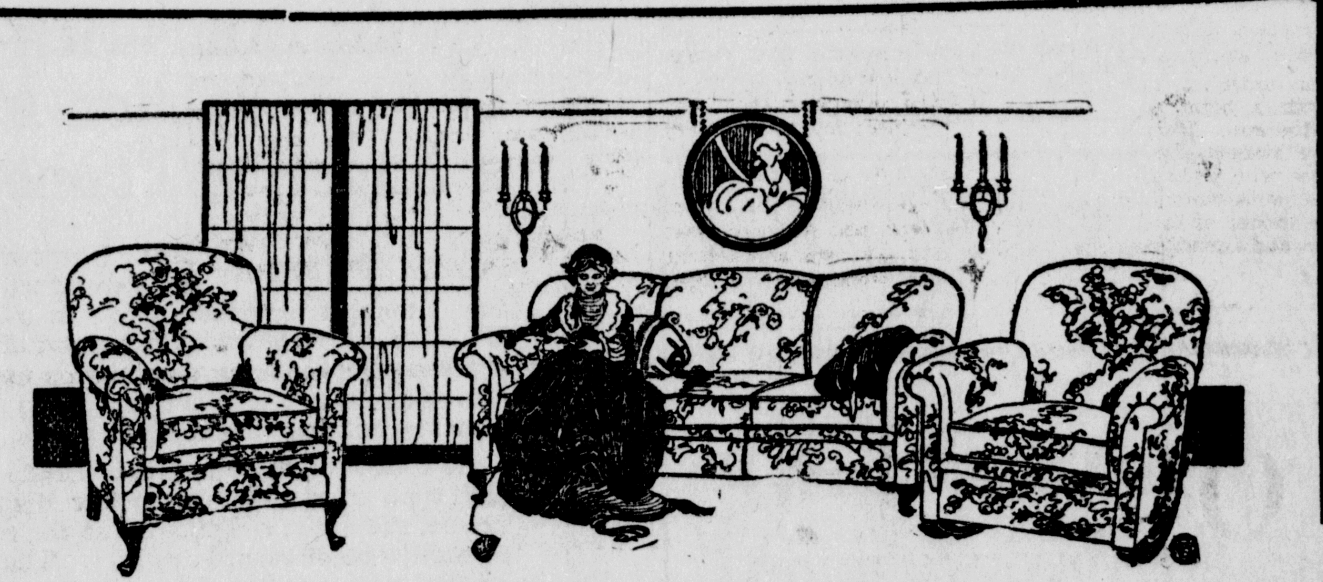

Catarrh should be treated, first, as a blood disease, with this alternative. Then in addition the nose should be washed daily with Dr. Sage's Catarrh Remedy. Send 10c for trial pkg. of Medical Discovery Tablets or Catarrh Tablets to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y.

Mrs. Ella Wathall is the guest of her sister, Mrs. Otto Prizer and family at Brookville.

Friends of H. B. Zartman are sorry to learn that his condition is still critical. Mr. Zartman has been teaching at the Myers school, west of Jamestown, and as he was returning home last Tuesday, he suffered a stroke of paralysis, and fell by the roadside opposite the home of Mr. Stoner, who discovered him and brot him to his home in an automobile. Mr. Zartman understands what is said to him, but is unable to articulate.

On Thursday evening Mr. and Mrs. Otto Denbuer entertained a number of friends. The evening was an enjoyable one in a social way. The hostess serving a refreshment course during the evening.

Mr. and Mrs. Ray Cushman took their little daughter Henrietta to the McClellan hospital, at Xenia last week, where Dr. McClellan removed her tonsils and adenoids, from which she is recovering nicely.

Miss Sarah Short was at sixteen mile stand, near Cincinnati, last week, attending the funeral services of a cousin, Phillip Myers.

Mrs. James Roberts is convalescing from a severe attack of bronchitis. Her two little granddaughters Helen Spahr and Bertha Huffman have recovered from the measles, having been ill with them at the Roberts home at the same time.

Mrs. W. H. Palmer has been spending several days in Xenia, with her daughter, Mrs. Charles A. Davis.

Mrs. C. E. Roberts of London, has been visiting the home folks in Jamestown.

Miss Gladys Conrey has resigned her position at the Farquhar dry goods store, and is going to Wittenberg, to take a normal course, in preparation for a teaching. Miss Conrey is a graduate of Jamestown high school of the class of 1919.

Mrs. G. O. Carpenter entertained on Saturday afternoon with a thimble party, and in the evening with cards.

Mrs. James Finn and two daughters, Dorothy and Ruth, of Dayton, spent the week end with her parents Mr. and Mrs. James Roberts. Mr. Finn is coming over to spend Sunday.

Miss Lucy, daughter of C. N. Smith, who underwent an operation at the Miami hospital, at Dayton, is getting along very nicely.

The Tobacco Factory in Jamestown is meeting the difficulty of getting the number of employees required.

Mrs. Louisa Shigley came over from Jeffersonville and spent Sunday with her son, Frank Shigley and family.

Mr. Henry Zartman was called from his home in Dayton to be with his brother, H. B. Zartman in Jamestown.

INEXPENSIVE DISHES

Fan Tow—This recipe will serve five persons: One and one-half pounds ground hamburger (beef and pork), one pint of tomatoes, one cup cooked rice, one tablespoon of butter, season to taste.

Put the hamburger in a baking dish, then add the tomatoes (which have been chopped) and the rice and butter. Mix thoroughly with one cup boiling water. Bake one hour and serve hot.

Meat Loaf—This is good either warm for supper or sliced cold for the lunch pail. To one pound of round steak, ground, add one good sized onion, ground. Soak two slices of hard bread in water; when soft, press out the water and add this and seasoning to the meat. Last, beat up one egg and add to the meat, onion and bread.

Mix all together well, shape into a loaf and bake in a moderate oven in a buttered pan for three-quarters of an hour.

No Waste Dish—Put two table- spoons of ham and ham fat, cut fine, into skillet with two tablespoons of

chopped onion; cook until tender, then add one-quarter cup vinegar, one teaspoon salt, one tablespoon sugar, and dash of pepper. Bring to boil. Add four cups of outside lettuce leaves, cover, cook three minutes, serve hot at once. Did you ever throw these things away?

Haggis—Wash and parboil one pound of calf liver fifteen minutes (save liquor). Have cooked onions Put liver and onions through food chopper, also one-half pound of beef suet. Put suet in pan, heat and add two cups of steel-cut oats. Toss over fire until brown in color.

Add liver, onions, two cups of the liquor. Season with salt and pepper. Turn into well greased bowl or mold and bake until done.

HINTS FOR CAKE BAKERS.

Baking tins rusted from nonus may be cleaned by rubbing the spots with a piece of paper dipped in flour.

If you have trouble with you cakes sticking in spite of greasing the pans well, try dusting the pans lightly with flour after they are greased, and see how easily the cake comes out.

Beat the reserved white of egg stiff while you boil one cup of browns sugar and one-half cup cold water. Cook until it makes a soft ball in cold water. Add to egg and beat until firm and add little vanilla. Spread on cake before cake is entirely cold.

MACHINISTS END STRIKE

Lima, April 28.—One hundred and twenty-five machinists of the Lake Erie and Western Railroad shops, on strike since Monday afternoon, returned to work yesterday, all troubles having been adjusted amicably. The men walked out when Henry McCready, president of the Machinists' Union was "discharged without

justification" by T. J. Mullen, shop foreman, the men held.

NEWSPAPERS INCREASE PRICE

Des Moines, Ia., April 28.—The price of evening papers in Des Moines went from cent to 2 cents a copy on street sales in the city. The papers are the Tribune, Capitol and News.

The Brunswick

Why the Brunswick Method of Reproduction Insures a Superior Phonograph

Reason No. 1 The Brunswick Method of Reproduction includes the Ultona, a new conception in playing. The Ultona consists of an arrangement of the several necessary reproducing diaphragms upon one tone arm — an all-in-one arrangement, with no attachments — nothing to take off or put on.

At a turn of the hand, the Ultona presents to any type of record the proper diaphragm and needle, the exact weight. Thus the requirements of each type of record are met. The Ultona demands no sacrifice in tone, as attachments often do.

Reason No. 2 Equal in importance to reproduction is tone amplification. The Brunswick Method of Reproduction also includes a new idea in acoustics — The Brunswick Amplifier.

Old-time ideas were at variance. Some makers still cling to metal construction. Others use a combination of wood and metal — a wooden horn and a metal casting as the "throat."

But the Brunswick Amplifier is oval in shape, and built entirely of wood, like a fine violin. It is molded of rare holly-wood. The sound waves receive uniform amplification to reach their fullness, hence the Brunswick tone is richer and more natural. Strident, metallic notes are absent.

We Invite Comparison

THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS

A MODERN STORY OF HOME AND BUSINESS

A NEW ARRANGEMENT Chapter 115

"What is it, Mrs. Meredith? Are you coming back to me?" Madame asked when once we were in her private office and the door closed. It had been difficult getting past the girls, they all wanted to stop me. But I told them I'd see them after I had talked with Madame. Their curious looks, and the stage whispers they threw after me showed how deeply they were interested.

"That depends, Madame Lets."

"On what? Haven't I always treated you fairly?"

"Very—perhaps you have been more than fair. But then I considered myself only. I have been keeping house over a year—there was no need to tell her I had also been trimming hats—and I cannot give it up, would not give it up for any salary, no matter how large. But I am not quite so contented to be idle. Then living is so high, that a plan Mr. Meredith and I have in mind will materialize much more quickly if I work. But I cannot stay in shop long hours. I came to you first, naturally. But unless you want me for only certain hours daily, I shall have to look elsewhere."

"Will you tell me your reasons?"

"I have already partly told you. I shall not give up keeping house. I had then explained how very nearly I had lost Robert, mentioning no names—also how he had practically lost all ambition and was losing his grip on business entirely."

"I don't understand! Why should

he object to your earning money?"

"I didn't understand either for a long, long time. But if you could see the difference a happy home of his own has made in my husband you would appreciate that he never would have been happy had I not made this home for him. Perhaps men are all like that." I went on, "they want a home. My friends' husbands all do. And I think a man in moderate circumstances—a small salaried man, thinks more of his home than wealthier men do. They have clubs, etc." I blushed and apologized for running on at such a rate.

"I have been much interested, although it seems rather a selfish view for a man to take of it. Now tell me just what you had in mind."

"I am perfectly willing to give you the very best there is in me from 10 in the morning until 4:30 in the afternoon"—I had figured that I might take an hour more in the morning and a half hour in the afternoon as I would not be running from place to place as I had been.

"What salary do you want?"

"What are you willing to give me for those hours? And Madame I will try to make up in my work for the shorter hours."

"I will give you \$50—and glad to do it. I hope you won't leave me again."

I went out to talk to the girls literally walking on air. I had not expected quite so much. I would have visited a moment or two with each

of the girls I knew then hurried home. Those of my customers who still remained must be told that I could visit them no longer, and invited to come to me at Madame Lets'. Then I had not yet decided what to do about telling Robert. I had already proved to him that a woman could earn money and still not neglect her home or her husband. But now I had to show him that a woman could take a permanent position, and be just as good a wife.

Whenever we had talked, the matter over he had contended that the latter was impossible.

"It's quite another matter when you are a free lance, going on your own time. But if a woman is tied to hours, has to be on the qui vive to make money for someone else, she can't keep house, or be any sort of a companion for her husband. We tried it without the housekeeping, Gerry, and even then it didn't work. You were tired to death all the time, and so bound up in your work you could talk of nothing but hats. I had no companionship at all."

I might have reminded him that now he talked shop that I had scarcely ever spoke of my work. But I didn't. Living was soaring. It wasn't fair, aside from anything else, for me to sit idle a great share of the time, while he strained every nerve to meet the increased cost.

Finally I decided not to tell him for one month—to try it out before I said anything. I made Jane and Betty promise not to mention it. Then I took my old place in the shop.

**INEXPENSIVE DISHES**  
Fan Tow—This recipe will serve five persons: One and one-half pounds ground hamburger (beef and pork), one pint of tomatoes, one cup cooked rice, one tablespoon of butter, season to taste.

Put the hamburger in a baking dish, then add the tomatoes (which have been chopped) and the rice and butter. Mix thoroughly with one cup boiling water. Bake one hour and serve hot.

**Meat Loaf**—This is good either warm for supper or sliced cold for the lunch pail. To one pound of round steak, ground, add one good sized onion, ground. Soak two slices of hard bread in water; when soft, press out the water and add this and seasoning to the meat. Last, beat up one egg and add to the meat, onion and bread.

Mix all together well, shape into a loaf and bake in a moderate oven in a buttered pan for three-quarters of an hour.

**No Waste Dish**—Put two tablespoons of ham and ham fat cut fine, into skillet with two tablespoons of

chopped onion; cook until tender, then add one-quarter cup vinegar, one teaspoon salt, one tablespoon sugar, and dash of pepper. Bring to boil. Add four cups of outside lettuce leaves, cover, cook three minutes, serve hot at once. Did you ever throw these things away?

**Haggis**—Wash and parboil one pound of calf liver fifteen minutes (save liquor). Have cooked onions. Put liver and onions through food chopper, also one-half pound of beef suet. Put suet in pan, heat and add two cups of steel-cut oats. Toss over fire until brown in color.

Add liver, onions, two cups of the liquor. Season with salt and pepper. Turn into well greased bowl or mold and bake until done.

**Escalloped Cabbage and Cheese**—Put layer of cabbage, then cheese then bread crumbs, then a layer of onions. Season with salt, pepper butter and milk. Bake in oven.

Try baked macaroni, rice and cheese, with white sauce; top of with bread crumbs.

Try a little boiled rice mixed with your cornmeal mush the next time you make it.
